Contents

IFRS 18 Presentation and Disclosure in Financial Statements is set out in paragraphs 1–132 and appendices A–D. All the paragraphs have equal authority. Paragraphs in **bold type** state the main principles. Terms defined in Appendix A are in *italics* the first time that they appear in the Standard. Definitions of other terms are given in the Glossary. The Standard should be read in the context of its objective and the Basis for Conclusions, the *Preface to IFRS Accounting Standards* and the Conceptual Framework for Financial Reporting. IAS 8 Basis of Preparation of Financial Statements provides a basis for selecting and applying accounting policies in the absence of explicit guidance.

[Refer:IAS 8 paragraphs 10–12]

International Financial Reporting Standard 18Presentation and Disclosure in Financial Statements

Objective

1 This Standard sets out requirements for the presentation and disclosure of information in *general purpose financial statements* (financial statements) to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses.

[Refer:*Conceptual Framework* paragraphs 2.5-2.22]

Scope

2 **An entity shall apply this Standard in presenting and disclosing information in financial statements prepared in accordance with *IFRS Accounting Standards*.**

3 This Standard sets out general and specific requirements for the presentation of information in the statement(s) of financial performance, the statement of financial position and the statement of changes in equity. This Standard also sets out requirements for the disclosure of information in the *notes*. IAS 7 Statement of Cash Flows sets out requirements for the presentation and disclosure of cash flow information. However, the general requirements for financial statements in paragraphs 9–43 and 113–114 apply to the statement of cash flows.

4 Other IFRS Accounting Standards set out the recognition, measurement, presentation and disclosure requirements for specific transactions and other events.

5 This Standard does not apply to the presentation and disclosure of information in condensed interim financial statements prepared applying IAS 34 Interim Financial Reporting. However, paragraphs 41–45 and 117–125 apply to such financial statements.

6 This Standard uses terminology that is suitable for profit-oriented entities, including public sector business entities. If entities with not-for-profit activities in the private sector or the public sector apply this Standard, they may need to amend the descriptions used for particular line items, categories, subtotals or totals in the financial statements and for the financial statements themselves.

7 Similarly, entities that do not have equity as defined in IAS 32 Financial Instruments: Presentation (for example, some mutual funds) and entities whose share capital is not equity (for example, some co-operative entities) may need to adapt the financial statement presentation of members' or unitholders' interests.

8 Many entities provide a financial review by management, which is separate from the financial statements (see paragraph 10), that describes and explains the main features of the entity's financial performance and financial position, as well as the principal uncertainties it faces. Such a review is outside the scope of IFRS Accounting Standards.

[Note:IFRS Practice Statement 1 Management Commentary provides a broad, non-binding framework for the presentation of management commentary that relates to financial statements that have been prepared in accordance with IFRS Accounting Standards.]

General requirements for financial statements

Objective of financial statements

9 The objective of financial statements is to provide financial information about a reporting entity's assets, liabilities, equity, income and expenses that is useful to users of financial statements in assessing the prospects for future net cash inflows to the entity and in assessing management's stewardship of the entity's economic resources.

[Refer:*Conceptual Framework* paragraph 3.2]

A complete set of financial statements

10 **A complete set of financial statements comprises:**

(a) **a statement (or statements) of financial performance for the reporting period (see paragraph 12);**

[Refer:paragraphs 46–95 and B29–B89]

(b) **a statement of financial position as at the end of the reporting period;**

[Refer:paragraphs 96–106 and B90–B111]

(c) **a statement of changes in equity for the reporting period;**

[Refer:paragraphs 107–112]

(d) **a statement of cash flows for the reporting period;**

[Refer:

paragraph 3

IAS 7]

(e) **notes for the reporting period;**

[Refer:paragraphs 113–132 and B112–B142]

Disclosure of accounting judgements and estimates [text block] Common practice	Text block	800500
Disclosure of accrued expenses and other liabilities [text block] Common practice	Text block	800500

Disclosure of insurance premium revenue [text block] Common practice	Text block	800500
Disclosure of intangible assets and goodwill [text block] Common practice	Text block	800500
Disclosure of interest expense [text block] Common practice	Text block	800500
Disclosure of interest income (expense) [text block] Common practice	Text block	800500
Disclosure of interest income [text block] Common practice	Text block	800500
Disclosure of investment contracts liabilities [text block] Common practice	Text block	800500
Disclosure of investments accounted for using equity method [text block] Common practice	Text block	800500
Disclosure of investments other than investments accounted for using equity method [text block] Common practice	Text block	800500
Disclosure of issued capital [text block] Common practice	Text block	800500
Disclosure of lease prepayments [text block] Common practice	Text block	800500
Disclosure of liquidity risk [text block] Common practice	Text block	800500
Disclosure of loans and advances to banks [text block] Common practice	Text block	800500
Disclosure of loans and advances to customers [text block] Common practice	Text block	800500

Disclosure of market risk [text block] Common practice	Text block	800500
Disclosure of net asset value attributable to unit-holders [text block] Common practice	Text block	800500
Disclosure of non-controlling interests [text block] Common practice	Text block	800500
Disclosure of non-current assets or disposal groups classified as held for sale [text block] Common practice	Text block	800500
Disclosure of operating profit (loss) [text block] Common practice	Text block	800500
Disclosure of other assets [text block] Common practice	Text block	800500
Disclosure of other current assets [text block] Common practice	Text block	800500
Disclosure of other current liabilities [text block] Common practice	Text block	800500
Disclosure of other liabilities [text block] Common practice	Text block	800500
Disclosure of other non-current assets [text block] Common practice	Text block	800500
Disclosure of other non-current liabilities [text block] Common practice	Text block	800500
Disclosure of other operating expense [text block] Common practice	Text block	800500
Disclosure of other operating income (expense) [text block] Common practice	Text block	800500
Disclosure of other operating income [text block] Common practice	Text block	800500
Disclosure of prepayments and other assets [text block] Common practice	Text block	800500
Disclosure of provisions [text block] Common practice	Text block	800500
Disclosure of reclassification of financial instruments [text block] Common practice	Text block	800500
Disclosure of reinsurance [text block] Common practice	Text block	800500
Disclosure of repurchase and reverse repurchase agreements [text block] Common practice	Text block	800500
Disclosure of research and development expense [text block] Common practice	Text block	800500
Disclosure of restricted cash and cash equivalents [text block] Common practice	Text block	800500
Disclosure of revenue [text block] Common practice	Text block	800500
Disclosure of subordinated liabilities [text block] Common practice	Text block	800500

Disclosure of tax receivables and payables [text block] Common practice	Text block	800500
Disclosure of trade and other payables [text block] Common practice	Text block	800500
Disclosure of trade and other receivables [text block] Common practice	Text block	800500
Disclosure of trading income (expense) [text block] Common practice	Text block	800500
Disclosure of treasury shares [text block] Common practice	Text block	800500

(f) **comparative information in respect of the preceding period as specified in paragraphs 31–32; and**

(g) **a statement of financial position as at the beginning of the preceding period if required by paragraph 37.**

11 The statements listed in paragraphs 10(a)–10(d) (and their comparative information) are referred to as the *primary financial statements*. An entity may use titles for the statements other than those used in this Standard. For example, an entity may use the title 'balance sheet' instead of 'statement of financial position'. In addition, although this Standard uses terms such as '*other comprehensive income*', '*profit or loss*' and '*total comprehensive income*', an entity may use other terms to label the totals, subtotals and line items required by this Standard as long as they are labelled in a way that faithfully represents the characteristics of the items, as required by paragraph 43. For example, an entity may use the term 'net income' to label 'profit or loss'.

[Refer:Basis for Conclusions paragraphs BCZ19–BCZ24]

12 An entity shall present its statement(s) of financial performance as either:

(a) a single statement of profit or loss and other comprehensive income, with profit or loss and other comprehensive income presented in two sections—if this option is chosen, an entity shall present the profit or loss section first followed directly by the other comprehensive income section; or

(b) a statement of profit or loss and a separate statement presenting comprehensive income that shall begin with profit or loss—if this option is chosen, the statement of profit or loss shall immediately precede the statement presenting comprehensive income.

13 In this Standard:

(a) the profit or loss section described in paragraph 12(a) and the statement of profit or loss described in paragraph 12(b) are referred to as the statement of profit or loss; and

(b) the other comprehensive income section described in paragraph 12(a) and the statement presenting comprehensive income described in paragraph 12(b) are referred to as the statement presenting comprehensive income.

14 An entity shall present each of the primary financial statements with equal prominence in a complete set of financial statements.

[Refer:Basis for Conclusions paragraph BCZ25]

The roles of the primary financial statements and the notes

[Refer:

paragraphs B6–B9

Basis for Conclusions paragraphs BC45–BC63]

To achieve the objective of financial statements (see paragraph 9), an entity presents information in the primary financial statements and discloses information in the notes. An entity need only present or disclose *material information* (see paragraphs 19 and B1–B5).

15 [Note:IFRS Practice Statement 2 Making Materiality Judgements (Practice Statement) provides reporting entities with guidance on making materiality judgements when preparing general purpose financial statements in accordance with IFRS Accounting Standards. The Practice Statement is non-mandatory guidance developed by the International Accounting Standards Board. It is not a Standard. Therefore, its application is not required to state compliance with IFRS Accounting Standards]

16 **The role of the primary financial statements is to provide structured summaries of a reporting entity's recognised assets, liabilities, equity, income, expenses and cash flows, that are useful to users of financial statements for:**

(a) obtaining an understandable overview of the entity's recognised assets, liabilities, equity, income, expenses and cash flows;

(b) making comparisons between entities, and between reporting periods for the same entity; and

(c) identifying items or areas about which users of financial statements may wish to seek additional information in the notes.

17 **The role of the notes is to provide material information necessary:**

(a) to enable users of financial statements to understand the line items presented in the primary financial statements (see paragraph B6); and

(b) to supplement the primary financial statements with additional information to achieve the objective of financial statements (see paragraph B7).

18 An entity shall use the roles of the primary financial statements and the notes, described in paragraphs 16–17, to determine whether to include information in the primary financial statements or in the notes. The different roles of the primary financial statements and the notes mean that the extent of the information required in the notes differs from that in the primary financial statements. The differences mean that:

(a) to provide the structured summaries described in paragraph 16, information provided in the primary financial statements is more aggregated than information provided in the notes; and

(b) to provide the information described in paragraph 17, more detailed information about the entity's assets, liabilities, equity, income, expenses and cash flows, including the *disaggregation* of information presented in the primary financial statements, is provided in the notes.

Information presented in the primary financial statements or disclosed in the notes

19 **Some IFRS Accounting Standards specify information that is required to be presented in the primary financial statements or disclosed in the notes. An entity need not provide a specific presentation or disclosure required by IFRS Accounting Standards if the information resulting from that presentation or disclosure is not material. This is the case even if IFRS Accounting Standards contain a list of specific requirements or describe them as minimum requirements.**

20 **An entity shall consider whether to provide additional disclosures when compliance with the specific requirements in IFRS Accounting Standards is insufficient to enable users of financial statements to understand the effect of transactions and other events and conditions on the entity's financial position and financial performance.**

Information presented in the primary financial statements

[Refer:Supporting materials Figure 8—Useful structured summary and the materiality process]

21 Paragraph 16 establishes that the role of the primary financial statements is to provide structured summaries that are useful for the purposes specified in that paragraph (referred to hereafter as a *useful*

structured summary). An entity shall use the role of the primary financial statements to determine what material information to present in those statements, as set out in paragraphs 22–24.

22 **To provide a useful structured summary in a primary financial statement, an entity shall comply with specific requirements that determine the structure of the statement. The specific requirements are:**

- **(a) for the statement of profit or loss—the requirements in paragraphs 47, 69, 76 and 78;**
- **(b) for the statement presenting comprehensive income—the requirements in paragraphs 86–88;**
- **(c) for the statement of financial position—the requirements in paragraphs 96 and 104;**
- **(d) for the statement of changes in equity—the requirements in paragraph 107; and**
- **(e) for the statement of cash flows—the requirements in paragraph 10 of IAS 7.**

23 **Some IFRS Accounting Standards require specific line items to be presented separately in the primary financial statements (for example paragraphs 75 and 103 of this Standard). An entity need not present separately a line item in a primary financial statement if doing so is not necessary for the statement to provide a useful structured summary. This is the case even if IFRS Accounting Standards contain a list of specific required line items or describe the line items as minimum requirements (see paragraph B8).**

24 **An entity shall present additional line items and subtotals if such presentations are necessary for a primary financial statement to provide a useful structured summary. When an entity presents additional line items or subtotals, those line items or subtotals shall (see paragraph B9):**

- **(a) comprise amounts recognised and measured in accordance with IFRS Accounting Standards;**
- **(b) be compatible with the statement structure created by the requirements listed in paragraph 22;**
- **(c) be consistent from period to period, in accordance with paragraph 30; and**
- **(d) be displayed no more prominently than the totals and subtotals required by IFRS Accounting Standards.**

Accruals and deferred income including contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100

Cost of purchased energy sold, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Cost of sales, food and beverage, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200

Cost of sales, hotel operations, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Cost of sales, room occupancy services, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Credit card loans Common practice	Monetary Instant, Debit		800100
Credit-related fee and commission income, operating Common practice	Monetary Duration, Credit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Current accruals and current deferred income including current contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current accrued expenses and other current liabilities Common practice	Monetary Instant, Credit		800100
Current accrued income including current contract assets Common practice	Monetary Instant, Debit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current accrued income other than current contract assets Common practice	Monetary Instant, Debit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current advances received, representing current contract liabilities for performance obligations satisfied at point in time Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current assets (liabilities) Common practice	Monetary Instant, Debit		800100
Current borrowings Common practice	Monetary Instant, Credit		800100
Current borrowings and current portion of non-current borrowings Common practice	Monetary Instant, Credit		800100
Current contract liabilities for performance obligations satisfied over time Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current debt instruments issued Common practice	Monetary Instant, Credit		800100
Current deferred income including current contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current deferred income other than current contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current deposits from customers Common practice	Monetary Instant, Credit		800100
Current derivative financial assets Common practice	Monetary Instant, Debit		800100
Current derivative financial liabilities Common practice	Monetary Instant, Credit		800100

Current dividend payables Common practice	Monetary Instant, Credit		800100
Current finance lease receivables Common practice	Monetary Instant, Debit		800100
Current financial assets at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Current government grants Common practice	Monetary Instant, Credit		800100
Current investments Common practice	Monetary Instant, Debit		800100
Current net defined benefit asset Common practice	Monetary Instant, Debit		800100
Current net defined benefit liability Common practice	Monetary Instant, Credit		800100
Current portion of non-current borrowings Common practice	Monetary Instant, Credit		800100
Current prepayments and current accrued income including current contract assets Common practice	Monetary Instant, Debit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current prepayments and current accrued income other than current contract assets Common practice	Monetary Instant, Debit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Current prepayments and other current assets Common practice	Monetary Instant, Debit		800100
Current programming assets Common practice	Monetary Instant, Debit		800100
Current restricted cash and cash equivalents Common practice	Monetary Instant, Debit		800100
Current warrant liability Common practice	Monetary Instant, Credit		800100
Debt instruments held Common practice	Monetary Instant, Debit		800100
Debt instruments held at amortised cost Common practice	Monetary Instant, Debit		800100
Debt instruments held at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Debt instruments held at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100
Debt instruments held measured at fair value through other comprehensive income Common practice	Monetary Instant, Debit		800100
Debt instruments issued Common practice	Monetary Instant, Credit		800100
Debt instruments issued at amortised cost Common practice	Monetary Instant, Credit		800100

Debt instruments issued at fair value through profit or loss, designated upon initial recognition or subsequently Common practice	Monetary Instant, Credit		800100
Deferred income including contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Deferred income other than contract liabilities Common practice	Monetary Instant, Credit	Effective 2027-01-01 IFRS 18.B111 Common practice	800100
Deposit liabilities Common practice	Monetary Instant, Credit		800100
Deposits at amortised cost Common practice	Monetary Instant, Credit		800100
Deposits at fair value through profit or loss that meet definition of held for trading Common practice	Monetary Instant, Credit		800100
Deposits at fair value through profit or loss, designated upon initial recognition or subsequently Common practice	Monetary Instant, Credit		800100
Deposits from banks Common practice	Monetary Instant, Credit		800100
Deposits from banks at amortised cost Common practice	Monetary Instant, Credit		800100
Deposits from banks at fair value through profit or loss that meet definition of held for trading Common practice	Monetary Instant, Credit		800100
Deposits from banks at fair value through profit or loss, designated upon initial recognition or subsequently Common practice	Monetary Instant, Credit		800100
Deposits from customers Common practice	Monetary Instant, Credit		800100
Deposits from customers at amortised cost Common practice	Monetary Instant, Credit		800100
Deposits from customers at fair value through profit or loss that meet definition of held for trading Common practice	Monetary Instant, Credit		800100
Deposits from customers at fair value through profit or loss, designated upon initial recognition or subsequently Common practice	Monetary Instant, Credit		800100
Depreciation expense, operating Common practice	Monetary Duration, Debit		330000
Depreciation, amortisation and impairment loss (reversal of impairment loss) recognised in profit or loss, investing Common practice	Monetary Duration, Debit		330000
Derivative financial assets Common practice	Monetary Instant, Debit		800100

Derivative financial assets held for hedging Common practice	Monetary Instant, Debit		800100
Derivative financial assets held for trading Common practice	Monetary Instant, Debit		800100
Derivative financial liabilities Common practice	Monetary Instant, Credit		800100
Derivative financial liabilities held for hedging Common practice	Monetary Instant, Credit		800100
Derivative financial liabilities held for trading Common practice	Monetary Instant, Credit		800100
Directors' remuneration expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Dividend income, investing Common practice	Monetary Duration, Credit		330000
Dividend income, operating Common practice	Monetary Duration, Credit		330000
Dividend payables Common practice	Monetary Instant, Credit		800100
Donations and subsidies expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Energy expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Energy transmission charges, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Equity instruments held Common practice	Monetary Instant, Debit		800100
Equity instruments held at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Equity instruments held at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100
Expense arising from passage of time on other provisions, financing Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Expense from cash-settled share-based payment transactions, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	834120
Expense from share-based payment transactions with employees, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	834120, 834480
Expense from share-based payment transactions with parties other than employees, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	834120

Finance lease receivables Common practice	Monetary Instant, Debit		800100
Financial assets at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Financial assets at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100
Franchise fee income, operating Common practice	Monetary Duration, Credit		330000
Fuel and energy expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Fuel expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Gain on recovery of loans and advances previously written off, operating Common practice	Monetary Duration, Credit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Gains (losses) on disposals of investment properties, operating Common practice	Monetary Duration, Credit		330000
Gains on disposals of investment properties, operating Common practice	Monetary Duration, Credit		330000
General and administrative expenses, operating Common practice	Monetary Duration, Debit		330000, 800260, 800270
Government grants Common practice	Monetary Instant, Credit		800100
Impairment loss (reversal of impairment loss) recognised in profit or loss, loans and advances, operating Common practice	Monetary Duration, Debit		330000
Impairment loss (reversal of impairment loss) recognised in profit or loss, trade receivables, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Impairment loss recognised in profit or loss, loans and advances, operating Common practice	Monetary Duration		330000
Impairment loss recognised in profit or loss, trade receivables, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Income from fines and penalties, operating Common practice	Monetary Duration, Credit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Income from reimbursements under insurance policies, operating Common practice	Monetary Duration, Credit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Income tax relating to other components of other comprehensive income that will be reclassified to profit or loss Common practice	Monetary Duration, Debit		800200

Income tax relating to other components of other comprehensive income that will not be reclassified to profit or loss Common practice	Monetary Duration, Debit		800200
Increase (decrease) in accumulated deferred tax recognised in other comprehensive income due to change in tax rate Common practice	Monetary Duration, Debit		800200
Insurance expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Intangible assets and goodwill Common practice	Monetary Instant, Debit		800100, 823180
Investment contracts liabilities Common practice	Monetary Instant, Credit		800100
Investment income, operating Common practice	Monetary Duration, Credit		330000
Investments for risk of policyholders Common practice	Monetary Instant, Debit		800100
Investments in associates accounted for using equity method Common practice	Monetary Instant, Debit		800100
Investments in joint ventures accounted for using equity method Common practice	Monetary Instant, Debit		800100
Investments other than investments accounted for using equity method Common practice	Monetary Instant, Debit		800100
Items in course of collection from other banks Common practice	Monetary Instant, Debit		800100
Items in course of transmission to other banks Common practice	Monetary Instant, Credit		800100
Liabilities due to central banks Common practice	Monetary Instant, Credit		800100
Licence fee income, operating Common practice	Monetary Duration, Credit		330000
Loans and advances Common practice	Monetary Instant, Debit		800100
Loans and advances at amortised cost Common practice	Monetary Instant, Debit		800100
Loans and advances at amortised cost, allowance for expected credit losses Common practice	Monetary Instant, Credit		800100
Loans and advances at amortised cost, gross carrying amount Common practice	Monetary Instant, Debit		800100
Loans and advances at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Loans and advances at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100

Loans and advances measured at fair value through other comprehensive income Common practice	Monetary Instant, Debit		800100
Loans and advances to banks Common practice	Monetary Instant, Debit		800100
Loans and advances to banks at amortised cost Common practice	Monetary Instant, Debit		800100
Loans and advances to banks at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Loans and advances to banks at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100
Loans and advances to banks measured at fair value through other comprehensive income Common practice	Monetary Instant, Debit		800100
Loans and advances to central banks Common practice	Monetary Instant, Debit		800100
Loans and advances to customers Common practice	Monetary Instant, Debit		800100
Loans and advances to customers at amortised cost Common practice	Monetary Instant, Debit		800100
Loans and advances to customers at fair value through profit or loss, classified as held for trading Common practice	Monetary Instant, Debit		800100
Loans and advances to customers at fair value through profit or loss, mandatorily measured at fair value, other than those classified as held for trading Common practice	Monetary Instant, Debit		800100
Loans and advances to customers measured at fair value through other comprehensive income Common practice	Monetary Instant, Debit		800100
Loans and advances to other credit institutions Common practice	Monetary Instant, Debit		800100
Loans to government Common practice	Monetary Instant, Debit		800100
Long-term deposits Common practice	Monetary Instant, Debit		800100
Losses on disposals of investment properties, operating Common practice	Monetary Duration, Debit		330000
Media production expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.113 c Common practice	800200
Merger reserve Common practice	Monetary Instant, Credit		800100
Mortgage loans Common practice	Monetary Instant, Debit		800100

Net defined benefit asset Common practice	Monetary Instant, Debit		800100

Identification of the financial statements

[Refer:paragraphs B10–B11]

25 **An entity shall clearly identify the financial statements and distinguish them from other information in the same published document (see paragraph B10).**

26 IFRS Accounting Standards apply only to financial statements, and not necessarily to other information provided in an annual report, a regulatory filing or another document. Therefore, it is important that users of financial statements can distinguish information that is prepared using IFRS Accounting Standards from other information that may be useful to users but is not the subject of those requirements.

27 **An entity shall clearly identify each primary financial statement and the notes. In addition, an entity shall disclose prominently, and repeat when necessary for the information provided to be understandable:**

(a) **the name of the reporting entity or other means of identification, and any change in that information from the end of the preceding reporting period;**

Change in name of reporting entity or other means of identification from end of preceding reporting period Disclosure	True/False	Effective 2027-01-01 IFRS 19.128 a Disclosure	110000
Explanation of change in name of reporting entity or other means of identification from end of preceding reporting period Disclosure	Text	Effective 2027-01-01 IFRS 19.128 a Disclosure	110000

Disclosure of general information about financial statements [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.128 Disclosure	110000, 800500

Frequency of reporting

An entity shall provide a complete set of financial statements at least annually. When an entity changes the end of its reporting period and provides financial statements for a period longer or shorter than one year, the entity shall disclose, in addition to the period covered by the financial statements:

28

the reason for using a longer or shorter period; and

(a)	Description of reason for using longer or shorter reporting period Disclosure	Text		810000

the fact that amounts included in the financial statements are not entirely comparable.

(b)	Amounts presented in financial statements are not entirely comparable Disclosure	True/False		810000
	Description of fact that amounts included in financial statements are not entirely comparable Disclosure	Text		810000

29 Normally, an entity consistently prepares financial statements for a one-year period. However, for practical reasons, some entities prefer to report, for example, for a 52-week period. This Standard does not preclude this practice.

Consistency of presentation, disclosure and classification

[Refer:

paragraphs B12

Basis for Conclusions paragraphs BCZ322]

30 **An entity shall retain the presentation, disclosure and *classification* of items in the financial statements from one reporting period to the next unless:**

(a) it is apparent, following a significant change in the nature of the entity's operations or a review of its financial statements, that another presentation, disclosure or classification would be more appropriate having regard to the criteria for selecting and applying accounting policies in IAS 8 Basis of Preparation of Financial Statements (see paragraph B12); [Refer:IAS 8 paragraphs 7–13] **or**

(b) an IFRS Accounting Standard requires a change in presentation, disclosure or classification.

Comparative information

[Refer:

paragraphs B13–B15

Basis for Conclusions paragraphs BCZ64–BCZ70]

31 **Except when IFRS Accounting Standards permit or require otherwise,** [Refer:for example, IFRS 1 paragraph 21] **an entity shall provide comparative information (that is, information for the preceding reporting period) for all amounts reported in the current period's financial statements. An entity shall include comparative information for narrative and descriptive information if it is necessary for an understanding of the current period's financial statements (see paragraph B13).**E1

E1 [IFRIC *Update*, June 2005, Agenda Decision, 'IAS 1 Comparatives for prospectuses'

The IFRIC considered whether to amend requirements in paragraph 36 of IAS 1 [now paragraph 31 of IFRS 18 Presentation and Disclosure in Financial Statements] relating to comparative information, because of perceived practical problems in complying with EU requirements for prospectuses.

The IFRIC decided not to add the item to its agenda because it believed that the issue involved a difference of approach between IAS 1 [now IFRS 18] and certain regulatory requirements that were not capable of being resolved merely by issuing an interpretation of IAS 1.]

32 **An entity shall present a current reporting period and preceding period in each of its primary financial statements and in the notes. Paragraphs B14–B15 set out requirements relating to additional comparative information.**

Change in accounting policy, retrospective restatement or reclassification

33 **If an entity changes the presentation, disclosure or classification of items in its financial statements, it shall reclassify comparative amounts unless reclassification is impracticable. When an entity reclassifies comparative amounts, it shall disclose (including as at the beginning of the preceding period):**

(a) the nature of the reclassification;

Description of nature of reclassifications or changes in presentation or disclosure Disclosure	Text	Effective 2027-01-01 IFRS 19.129 a Disclosure	810000

(b) the amount of each item or class of items that is reclassified; and

34 **When it is impracticable to reclassify comparative amounts, an entity shall disclose:**

the reason for not reclassifying the amounts; and

(a)	Description of reason why reclassification of comparative amounts is impracticable Disclosure	Text	Effective 2027-01-01 IFRS 19.130 a Disclosure	810000

the nature of the adjustments that would have been made if the amounts had been reclassified.

(b)	Description of nature of necessary adjustments to provide comparative information Disclosure	Text	Effective 2027-01-01 IFRS 19.130 b Disclosure	810000

[Refer:IAS 8 paragraph 5 (definition of impracticable)]

35 Enhancing the inter-period comparability of information assists users of financial statements in making economic decisions, especially by allowing the assessment of trends in information for predictive purposes. In some circumstances, it is impracticable to reclassify comparative information for a particular prior reporting period to achieve consistency with the current period. For example, an entity may not have collected data in the prior period(s) in a way that allows reclassification, and it may be impracticable to recreate the information.

36 IAS 8 sets out the adjustments to comparative information required when an entity changes an accounting policy [Refer:IAS 8 paragraphs 14–31 and 50–53] or corrects an error [Refer:IAS 8 paragraphs 41–53].

37 **An entity shall present a third statement of financial position as at the beginning of the preceding period in addition to the comparative information required in paragraphs 31–32 if:**

(a) it applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements; and

(b) the retrospective application, retrospective restatement or reclassification has a material effect on the information in the statement of financial position as at the beginning of the preceding period.

38 In the circumstances described in paragraph 37 an entity shall present three statements of financial position—a statement of financial position as at:

(a) the end of the current reporting period;

(b) the end of the preceding period; and

(c) the beginning of the preceding period.

39 When an entity is required to present a third statement of financial position applying paragraph 37, it shall disclose the information required by paragraphs 33–36 and IAS 8. However, it need not provide the related notes to the statement of financial position as at the beginning of the preceding period.

40 The date of that third statement of financial position shall be as at the beginning of the preceding period regardless of whether an entity's financial statements provide comparative information for earlier periods (as permitted by paragraphs B14–B15).

Aggregation and disaggregation

Principles of aggregation and disaggregation

[Refer:

paragraphs B16–B26

Basis for Conclusions paragraphs BC71–BC80]

41 **For the purposes of this Standard, an item is an asset, liability, equity instrument or reserve, income, expense or cash flow or any *aggregation* or disaggregation of such assets, liabilities, equity, income, expenses or cash flows. A line item is an item that is presented separately in the primary financial statements. Other material information about items is disclosed in the notes. Unless doing so would override specific aggregation or disaggregation requirements in IFRS Accounting Standards, an entity shall (see paragraphs B16–B23):**

- **(a) classify and aggregate assets, liabilities, equity, income, expenses or cash flows into items based on shared characteristics;**
- **(b) disaggregate items based on characteristics that are not shared;**
- **(c) aggregate or disaggregate items to present line items in the primary financial statements that fulfil the role of the primary financial statements in providing useful structured summaries (see paragraph 16);**
- **(d) aggregate or disaggregate items to disclose information in the notes that fulfils the role of the notes in providing material information (see paragraph 17); and**
- **(e) ensure that aggregation and disaggregation in the financial statements do not obscure material information (see paragraph B3).**

42 Applying the principles in paragraph 41, an entity shall disaggregate items whenever the resulting information is material. If, applying paragraph 41(c), an entity does not present material information in the primary financial statements, it shall disclose the information in the notes. Paragraphs B79 and B111 set out examples of income, expenses, assets, liabilities and items of equity that might have sufficiently dissimilar characteristics that presentation in the statement of profit or loss or statement of financial position or disclosure in the notes is necessary to provide material information.

43 **An entity shall label and describe items presented in the primary financial statements (that is, totals, subtotals and line items) or items disclosed in the notes in a way that faithfully represents the characteristics of the item (see paragraphs B24–B26). To faithfully represent an item, an entity shall provide all descriptions and explanations necessary for a user of financial statements to understand the item. In some cases, an entity might need to include in the descriptions and explanations the meaning of the terms the entity uses and information about how it has aggregated or disaggregated assets, liabilities, equity, income, expenses and cash flows.**

Offsetting

[Refer:paragraphs B27–B28]

44 **An entity shall not offset assets and liabilities or income and expenses, unless required** [Refer:for example, IAS 32 paragraph 42] **or permitted by an IFRS Accounting Standard (see paragraphs B27–B28).**

45 An entity reports separately both assets and liabilities, and income and expenses. Offsetting in the statement(s) of financial performance or the statement of financial position, except when offsetting reflects the substance of the transaction or other event, reduces users' ability to understand the transactions and other events and conditions that have occurred and to assess the entity's future cash flows. Measuring assets net of valuation allowances—for example, obsolescence allowances on inventories and allowances for expected credit losses on financial assets—is not offsetting.

Statement of profit or loss

[Refer:Illustrative Examples Part I, Statement of profit or loss and Part II, Example II-1–II-4]

46 **An entity shall include all items of income and expense in a reporting period in the statement of profit or loss unless an IFRS Accounting Standard requires or permits otherwise (see paragraphs 88–95 and B86).**

Categories in the statement of profit or loss

[Refer:

paragraph B29

Supporting materials Figure 2—Classification of income and expenses in the statement of profit or loss for entities without specified main business activities

Basis for Conclusions paragraphs BC81–BC87]

47 **An entity shall classify income and expenses included in the statement of profit or loss in one of five categories (see paragraph B29):**

(a) the operating category (see paragraph 52);

(b) the investing category (see paragraphs 53–58);

(c) the financing category (see paragraphs 59–66);

(d) the income taxes category (see paragraph 67); and

(e) the discontinued operations category (see paragraph 68).

48 Paragraphs 52–68 set out requirements for classifying income and expenses in the operating, investing, financing, income taxes and discontinued operations categories. In addition, paragraphs B65–B76 set out requirements on how foreign exchange differences, the gain or loss on the net monetary position, and gains and losses on derivatives and designated hedging instruments are classified in the categories.

Entities with specified main business activities

[Refer:

paragraphs B30–B41

Supporting materials Figure 3—Classification of specific income and expenses in the statement of profit or loss by entities with specified main business activities

Basis for Conclusions paragraphs BC94–BC102]

49 To classify income and expenses in the operating, investing and financing categories, an entity shall assess whether it has a specified main business activity—that is a main business activity of (see

paragraphs B30–B41):

(a) investing in particular types of assets, referred to hereafter as investing in assets (see paragraph 53); or

(b) providing financing to customers.

50 Applying paragraphs 55–58 and 65–66, an entity with a specified main business activity classifies in the operating category some income and expenses that would have been classified in the investing or financing category if the activity were not a main business activity.

51 If an entity:

(a) invests in assets as a main business activity, it shall disclose that fact.

Entity invests in assets as a main business activity Disclosure	True/False	Effective 2027-01-01 IFRS 19.132 a Disclosure	810000

(b) provides financing to customers as a main business activity, it shall disclose that fact.

Entity provides financing to customers as a main business activity Disclosure	True/False	Effective 2027-01-01 IFRS 19.132 b Disclosure	810000

(c) identifies a different outcome from its assessment of whether it invests in assets or provides financing to customers as a main business activity (see paragraph B41), it shall disclose:

(i) the fact the outcome of the assessment has changed and the date of the change.

Entity changed assessment of whether it invests in assets or provides financing to customers as a main business activity Disclosure	True/False	Effective 2027-01-01 IFRS 19.132 c (i) Disclosure	810000

(ii) the amount and classification of items of income and expense before and after the date of the change in the outcome of the assessment in the current period and the amount and classification in the prior period for the items for which the classification has changed because of the changed outcome of the assessment, unless it is impracticable to do so. If an entity does not disclose the information because it is impracticable to do so, the entity shall disclose that fact.

[Refer:IAS 8 paragraph 5 (definition of impracticables)]

Amount and classification not disclosed because of impracticability for items for which classification has changed because of changed assessment of specified main business activity(ies) Disclosure	True/False	Effective 2027-01-01 IFRS 19.132 c (ii) Disclosure	810000

The operating category

[Refer:

paragraph B42

Basis for Conclusions paragraphs BC88–BC93 and BC407–BC413]

An entity shall classify in the operating category all income and expenses included in the statement of profit or loss that are not classified in (see paragraph B42):

52
- **(a) the investing category;** [Refer:paragraphs 53–58 and B43–B49]
- **(b) the financing category;** [Refer:paragraphs 59–66 and B50–B59]
- **(c) the income taxes category;** [Refer:paragraph 67] **or**
- **(d) the discontinued operations category.** [Refer:paragraph 68]

The investing category

[Refer:

paragraphs B43–B49

Basis for Conclusions paragraphs BC103–BC147]

53 **Except as required by paragraphs 55–58 for an entity that has a specified main business activity, an entity shall classify in the investing category income and expenses specified in paragraph 54 from:**

- **(a) investments in associates, joint ventures and unconsolidated subsidiaries (see paragraphs B43–B44);**
- **(b) cash and cash equivalents; and** [Refer:IAS 7 paragraph 6 (definition of cashcash and cash equivalentscash equivalents)]
- **(c) other assets if they generate a return individually and largely independently of the entity's other resources (see paragraphs B45–B49).**

54 **The income and expenses from the assets identified in paragraph 53 that an entity shall classify in the investing category comprise the amounts included in the statement of profit or loss for (see paragraph B47):**

- **(a) the income generated by the assets;**
- **(b) the income and expenses that arise from the initial and subsequent measurement of the assets, including on derecognition of the assets; and**
- **(c) the incremental expenses directly attributable to the acquisition and disposal of the assets—for example, transaction costs and costs to sell the assets.**

Entities with specified main business activities

55 For the assets specified in paragraph 53(a) (that is, investments in associates, joint ventures and unconsolidated subsidiaries) that an entity invests in as a main business activity (see paragraph B38), the entity shall classify the income and expenses specified in paragraph 54:

- (a) in the investing category if the assets are accounted for applying the equity method (see paragraphs B43(a) and B44(a)); or
- (b) in the operating category if the assets are not accounted for applying the equity method (see paragraphs B43(b)–(c) and B44(b)–(c)).

56 For the assets specified in paragraph 53(b) (that is, cash and cash equivalents), an entity shall classify the income and expenses specified in paragraph 54 in the investing category unless:

- (a) it invests as a main business activity in financial assets within the scope of paragraph 53(c)—in which case it shall classify the income and expenses in the operating category.

it does not meet the requirements in (a) but provides financing to customers as a main business activity—in which case it shall classify:

(i) the income and expenses from cash and cash equivalents that relate to providing financing to customers, for example cash and cash equivalents held for related regulatory requirements—in the operating category.

the income and expenses from cash and cash equivalents that do not relate to providing financing to customers—by applying an accounting policy choice to classify the income and expenses specified in paragraph 54 in the operating category or the investing category. The choice of accounting policy shall be consistent with that made by the entity for the purpose of the related accounting policy for income and expenses from liabilities in paragraph 65(a)(ii).

(b)	(ii)	Classification of income and expenses from cash and cash equivalents that do not relate to providing financing to customers Disclosure	List		810000
		Disclosure of accounting policy choices for income and expenses from specific cash and cash equivalents and from specific liabilities [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 18.65 a (ii) Disclosure	810000
		Investing category [member] Disclosure	Member		995000
		Operating category [member] Disclosure	Member		995000
		Operating category or investing category [domain] Disclosure	Domain		995000

57 If an entity applying paragraph 56(b) cannot distinguish between the cash and cash equivalents described in paragraphs 56(b)(i) and 56(b)(ii), it shall apply the accounting policy choice in paragraph 56(b)(ii) to classify income and expenses from all cash and cash equivalents in the operating category.

58 For the assets specified in paragraph 53(c) (that is, other assets if they generate a return individually and largely independently of the entity's other resources) that an entity invests in as a main business activity (see paragraph B40), the entity shall classify the income and expenses specified in paragraph 54 in the operating category.

The financing category

[Refer:

paragraphs B50–B59

Basis for Conclusions paragraphs BC148–BC199]

59 **To determine what income and expenses to classify in the financing category, an entity shall distinguish between:**

(a) liabilities that arise from transactions that involve only the raising of finance (see paragraphs B50–B51); and

(b) liabilities other than those described in (a)—that is, liabilities that arise from transactions that do not involve only the raising of finance (see paragraph B53).

60 **For the liabilities specified in paragraph 59(a) (that is, liabilities that arise from transactions that involve only the raising of finance), except as set out in paragraphs 63–66, an entity shall classify in the financing category the amounts included in the statement of profit or loss for:**

(a) income and expenses that arise from the initial and subsequent measurement of the liabilities, including on derecognition of the liabilities (see paragraph B52); and

(b) the incremental expenses directly attributable to the issue and extinguishment of the liabilities —for example, transaction costs.

For the liabilities specified in paragraph 59(b) (that is, liabilities that arise from transactions that do not involve only the raising of finance), except as set out in paragraphs 63–64, an entity shall classify in the financing category:

61 **(a) interest income and expenses, but only if the entity identifies such income and expenses for the purpose of applying other requirements in IFRS Accounting Standards; and**

(b) income and expenses arising from changes in interest rates, but only if the entity identifies such income and expenses for the purpose of applying other requirements in IFRS Accounting Standards.

Interest expense, financing Disclosure	Monetary Duration, Debit		330000

62 Paragraphs B56–B57 set out how an entity shall apply the requirements in paragraphs 59–61 to hybrid contracts that contain a host that is a liability.

63 The requirements in paragraphs 60–61 do not apply to gains and losses on derivatives and designated hedging instruments. An entity shall apply paragraphs B70–B76 to classify such gains and losses.

An entity shall exclude from the financing category and classify in the operating category:

64 (a) income and expenses from issued investment contracts with participation features recognised applying IFRS 9 Financial Instruments (see paragraph B58); and

(b) insurance finance income and expenses included in the statement of profit or loss applying IFRS 17 Insurance Contracts.

Entities with specified main business activities

65 If an entity provides financing to customers as a main business activity, it shall classify income and expenses (see paragraph B59):

(a) from the liabilities specified in paragraph 59(a) (that is, liabilities that arise from transactions that involve only the raising of finance):

(i) if the liabilities relate to providing financing to customers—in the operating category.

(ii) if the liabilities do not relate to providing financing to customers—by applying an accounting policy choice to classify the income and expenses specified in paragraph 60 in the operating category or the financing category. The choice of accounting policy shall be consistent with that made by the entity for the purpose of the related accounting policy for income and expenses from cash and cash equivalents in paragraph 56(b)(ii).

Classification of income and expenses from liabilities that arise from transactions that involve only raising of finance and do not relate to providing financing to customers Disclosure	List		810000
Disclosure of accounting policy choices for income and expenses from specific cash and cash equivalents and from specific liabilities [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 18.56 b (ii) Disclosure	810000

from the liabilities specified in paragraph 59(b) (that is, liabilities that arise from transactions that do not involve only the raising of finance):

(b)
(i) if the income and expenses are specified in paragraph 61—in the financing category; or
(ii) if the income and expenses are not specified in paragraph 61—in the operating category.

66 If an entity applying paragraph 65(a) cannot distinguish between the liabilities described in paragraphs 65(a)(i) and 65(a)(ii), it shall apply the accounting policy choice in paragraph 65(a)(ii) to classify income and expenses from all such liabilities in the operating category.

The income taxes category

67 An entity shall classify in the income taxes category tax expense or tax income that is included in the statement of profit or loss applying IAS 12 Income Taxes, and any related foreign exchange differences (see paragraphs B65–B68).

The discontinued operations category

68 An entity shall classify in the discontinued operations category income and expenses from discontinued operations as required by IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

Totals and subtotals to be presented in the statement of profit or loss

[Refer: Basis for Conclusions paragraphs BC88–BC93, BC148–BC152, and BC189–BC191]

69 **An entity shall present totals and subtotals in the statement of profit or loss for:**

(a) ***operating profit or loss* (see paragraph 70);**

Operating profit (loss), operating Disclosure	Monetary Duration, Credit	Effective 2027-01-01 IAS 7.18 b Disclosure	330000, 520000, 800260, 800270

(b) ***profit or loss before financing and income taxes* (see paragraph 71), subject to paragraph 73; and**

Profit (loss) before financing and income taxes Disclosure	Monetary Duration, Credit		330000, 800270

(c) profit or loss (see paragraph 72).

Profit (loss) Disclosure	Monetary Duration, Credit	IFRS 1.24 b Disclosure IFRS 1.32 a (ii) Disclosure IFRS 12.B10 b Example IFRS 17.113 b Example Effective 2027-01-01 IFRS 18.107 c (i) Disclosure Effective 2027-01-01 IFRS 18.86 a Disclosure Effective 2027-01-01 IFRS 19.24 b Disclosure Effective 2027-01-01	330000, 410000, 420000, 610000, 800270, 819100, 825700, 836600, 842000, 871100

IFRS 19.28 a (ii) Disclosure
IFRS 8.23 Disclosure
IFRS 8.28 b Disclosure

70 Operating profit or loss comprises all income and expenses classified in the operating category.

71 Profit or loss before financing and income taxes comprises:

(a) operating profit or loss; and
(b) all income and expenses classified in the investing category.

72 Profit or loss is the total of income less expenses included in the statement of profit or loss. Accordingly, it comprises all income and expenses classified in all categories in the statement of profit or loss (see paragraph 47).

73 An entity shall not apply paragraph 69(b) if it applies the accounting policy set out in paragraph 65(a)(ii) of classifying in the operating category income and expenses from liabilities that do not relate to the provision of financing to customers. However, such an entity shall apply paragraph 24 to determine whether to present an additional subtotal after operating profit and before the financing category. For example, the entity would present a subtotal for operating profit or loss and income and expenses from investments accounted for using the equity method if the entity determines doing so is necessary to provide a useful structured summary of its income and expenses.

74 If an entity described in paragraph 73 presents an additional subtotal comprising operating profit or loss and all income and expenses classified in the investing category, it shall not label the subtotal in a way that implies the subtotal excludes financing amounts, such as ‘profit before financing’. Applying paragraph 43, the entity shall label the subtotal in a way that faithfully represents the amounts included in the subtotal.

Items to be presented in the statement of profit or loss or disclosed in the notes

[Refer:

paragraphs B77–B85

Basis for Conclusions paragraphs BC236–BC245]

75 **An entity shall present in the statement of profit or loss line items for (see paragraph B77):**

(a) amounts required by this Standard, namely:

revenue, presenting separately the line items described in (b)(i) and (c)(i);

(i)	Revenue, operating Disclosure	Monetary Duration, Credit	IFRS 12.B10 b Example IFRS 12.B12 b (v) Disclosure IFRS 5.33 b (i) Disclosure IFRS 8.23 a Disclosure IFRS 8.28 a Disclosure IFRS 8.32 Disclosure IFRS 8.33 a Disclosure IFRS 8.34 Disclosure	330000, 800200, 800270, 825700, 825900, 842000, 871100

(v) finance income or expenses from reinsurance contracts held.

Finance income (expenses) from reinsurance contracts held recognised in profit or loss, operating Disclosure	Monetary	Duration, Credit	IFRS 17.82 Disclosure	330000

[IFRIC® *Update*, July 2012, Agenda Decision, 'IAS 1 Presentation of Financial Statements and IAS 12 Income Taxes—Presentation of payments on non-income taxes'

The IFRS Interpretations Committee received a request seeking clarification of whether production-based royalty payments payable to one taxation authority that are claimed as an allowance against taxable profit for the computation of income tax payable to another taxation authority should be presented as an operating expense or a tax expense in the statement of comprehensive income.

As the basis for this request, the submitter assumed that the production-based royalty payments are, in themselves, outside the scope of IAS 12 Income Taxes while the income tax payable to the other taxation authority is within the scope of IAS 12. On the basis of this assumption, the submitter asks the Committee to clarify whether the production-based royalty payments can be viewed as prepayment of the income tax payable. The Committee used the same assumption when discussing the issue.

E2 [The Committee observed that the line item of 'tax expense' that is required by paragraph 82(d) of IAS 1 *Presentation of Financial Statements* is intended to require an entity to present taxes that meet the definition of income taxes under IAS 12. The Committee also noted that it is the basis of calculation determined by the relevant tax rules that determines whether a tax meets the definition of an income tax. Neither the manner of settlement of a tax liability nor the factors relating to recipients of the tax is a determinant of whether an item meets that definition.] [The requirements in IAS 1 referred to in this paragraph are not all brought forward unchanged to IFRS 18 *Presentation and Disclosure in Financial Statements*. The Committee's conclusion regarding the application of the requirements in IAS 1 might not apply to the requirements in IFRS 18.]

The Committee further noted that the production-based royalty payments should not be treated differently from other expenses that are outside the scope of IAS 12, all of which may reduce income tax payable. Accordingly, the Committee observed that it is inappropriate to consider the royalty payments to be prepayment of the income tax payables. Because the production-based royalties are not income taxes, the royalty payments should not be presented as an income tax expense in the statement of comprehensive income.

The Committee considered that, in the light of its analysis of the existing requirements of IAS 1 [now IFRS 18] and IAS 12, an interpretation was not necessary and consequently decided not to add this issue to its agenda.]

E3 [IFRIC® *Update*, March 2018, Agenda Decision, 'Presentation of interest revenue for particular financial instruments (IFRS 9 Financial Instruments and IAS 1 Presentation of Financial Statements)'

The Committee received a request about the effect of the consequential amendment that IFRS 9 made to paragraph 82(a) of IAS 1 [now paragraph 75(b)(i) of IFRS 18 Presentation and Disclosure in Financial Statements]. That consequential amendment requires an entity to present separately, in the profit or loss section of the statement of comprehensive income or in the statement of profit or loss, interest revenue calculated using the effective interest method. The request asked whether that requirement affects the presentation of fair value gains and losses on derivative instruments that are not part of a designated and effective hedging relationship (applying the hedge accounting requirements in IFRS 9 or IAS 39 Financial Instruments: Recognition and Measurement).

Appendix A to IFRS 9 defines the term 'effective interest method' and other related terms. Those interrelated terms pertain to the requirements in IFRS 9 for amortised cost measurement and the expected credit loss impairment model. In relation to financial assets, the Committee observed that the effective interest method is a measurement technique whose purpose is to calculate amortised cost and allocate interest revenue over the relevant time period. The Committee also observed that the expected credit loss impairment model in IFRS 9 is part of, and interlinked with, amortised cost accounting.

The Committee noted that amortised cost accounting, including interest revenue calculated using the effective interest method and credit losses calculated using the expected credit loss impairment model, is applied only to financial assets that are subsequently measured at amortised cost or fair value through other comprehensive income. In contrast, amortised cost accounting is not applied to financial assets that are subsequently measured at fair value through profit or loss.

Consequently, the Committee concluded that the requirement in paragraph 82(a) of IAS 1 [now paragraph 75(b)(i) of IFRS 18] to present separately an interest revenue line item calculated using the effective interest method applies only to those assets that are subsequently measured at amortised cost or fair value through other comprehensive income (subject to any effect of a qualifying hedging relationship applying the hedge accounting requirements in IFRS 9 or IAS 39).

The Committee did not consider any other presentation requirements in IAS 1 [now IFRS 18] or broader matters related to the presentation of other 'interest' amounts in the statement of comprehensive income. This is because the consequential amendment that IFRS 9 made to paragraph 82(a) of IAS 1 [now paragraph 75(b)(i) of IFRS 18] did not affect those matters. More specifically, the Committee did not consider whether an entity could present other interest amounts in the statement of comprehensive income, in addition to presenting the interest revenue line item required by paragraph 82(a) of IAS 1 [now paragraph 75(b)(i) of IFRS 18].

The Committee concluded that the principles and requirements in IFRS Standards provide an adequate basis for an entity to apply paragraph 82(a) of IAS 1 [now paragraph 75(b)(i) of IFRS 18] and present separately, in the profit or loss section of the statement of comprehensive income or in the statement of profit or loss, interest revenue calculated using the effective interest method. Consequently, the Committee decided not to add this matter to its standard-setting agenda.]

[IFRIC® *Update*, January 2015, Agenda Decision, 'IAS 39 Financial Instruments: Recognition and Measurement and IAS 1 Presentation of Financial Statements—Income and expenses arising on financial instruments with a negative yield—presentation in the statement of comprehensive income'

The Interpretations Committee discussed the ramifications of the economic phenomenon of negative effective interest rates for the presentation of income and expenses in the statement of comprehensive income.

The Interpretations Committee noted that interest resulting from a negative effective interest rate on a financial asset does not meet the definition of interest revenue in IAS 18 Revenue [IAS 18 has been withdrawn. Paragraph 4.2 of the *Conceptual Framework for Financial Reporting* contains a definition of
E4 income], because it reflects a gross outflow, instead of a gross inflow, of economic benefits. Consequently, the expense arising on a financial asset because of a negative effective interest rate should not be presented as interest revenue, but in an appropriate expense classification.

The Interpretations Committee noted that in accordance with paragraphs 85 and 112(c) of IAS 1 Presentation of Financial Statements [now paragraph 113(c) of IFRS 18 Presentation and Disclosure in Financial Statements], the entity is required to present additional information about such an amount if that is relevant to an understanding of the entity's financial performance or to an understanding of this item.

The Interpretations Committee considered that in the light of the existing IFRS requirements an interpretation was not necessary and consequently decided not to add the issue to its agenda.]

76 **An entity shall present in the statement of profit or loss (outside all the categories described in paragraph 47) an allocation of profit or loss for the reporting period attributable to:**

(a) **non-controlling interests; and**

[Refer:IFRS 10 Appendix A (definition of non-controlling interestnon-controlling interest)]

Profit (loss), attributable to non-controlling interests Disclosure	Monetary Duration, Credit	IFRS 12.12 e Disclosure	330000, 800270, 825700

(b) ***owners*** **of the parent.**

	Profit (loss), attributable to owners of parent Disclosure	Monetary Duration, Credit		330000, 838000

77 Paragraphs B78–B79 set out requirements on how an entity uses its judgement to determine whether to present additional line items in the statement of profit or loss or disclose items in the notes.

Presentation and disclosure of expenses classified in the operating category

[Refer:

paragraphs B80–B85

Basis for Conclusions paragraphs BC246–BC276]

78	**In the operating category of the statement of profit or loss, an entity shall classify and present expenses in line items in a way that provides the most useful structured summary of its expenses, using one or both of these characteristics (see paragraphs B80–B85):** **(a) the nature of expenses; or** **(b) the function of the expenses within the entity.**			
	Administrative expenses, operating Disclosure	Monetary Duration, Debit	IAS 26.35 b (vi) Disclosure	710000, 800200
	Decrease (increase) in inventories of finished goods and work in progress, operating Disclosure	Monetary Duration, Debit		330000
	Impairment loss (reversal of impairment loss) recognised in profit or loss, operating Disclosure	Monetary Duration, Debit		330000
79	Any individual line item shall comprise operating expenses aggregated on the basis of only one of these characteristics, but the same characteristic does not have to be used as the aggregation basis for all line items (see paragraph B81).			
80	In classifying expenses by nature ('nature expenses'), an entity provides information about operating expenses related to the nature of the economic resources consumed to accomplish the entity's activities without reference to the activities in relation to which those economic resources were consumed. Such information includes information about raw material expense, employee benefit expense, depreciation and amortisation.			
	Depreciation and amortisation expense, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.81 Example	330000
	Employee benefits expenses, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.83 a (iii) Disclosure Effective 2027-01-01 IFRS 19.133 a (iii) Disclosure	330000, 800260, 834480
	Raw materials and consumables used, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.81 b Example	330000

81 In classifying expenses by function within the entity, an entity allocates and aggregates operating expenses according to the activity to which the consumed resource relates. For example, cost of sales is a function line item that combines expenses relating to an entity's production or other revenue-generating

activities such as: raw material expense, employee benefit expense, depreciation and amortisation. Therefore, when classifying expenses by function, an entity might:

(a) allocate to several function line items (such as cost of sales and research and development) expenses relating to economic resources of the same nature (such as employee benefit expense); and

Research and development expenses, operating Example	Monetary Duration, Debit	IAS 38.126 Disclosure Effective 2027-01-01 IFRS 19.266 Disclosure	330000, 800260, 800270, 823180

(b) include in a single function line item an allocation of expenses relating to economic resources of several natures (such as raw material expense, employee benefit expense, depreciation and amortisation).

Raw materials and consumables used, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.80 Example	330000

Cost of sales, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.82 a Disclosure	330000, 800260
Employee benefits expenses, operating Example	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.80 Example Effective 2027-01-01 IFRS 18.83 a (iii) Disclosure Effective 2027-01-01 IFRS 19.133 a (iii) Disclosure	330000, 800260, 834480

82 If an entity presents one or more line items comprising expenses classified by function in the operating category of the statement of profit or loss, it shall:

(a) present a separate line item for its cost of sales, if the entity classifies operating expenses in functions that include a cost of sales function. That line item shall include the total of inventory expense described in [paragraph 38 of IAS 2 Inventories](#).

Cost of sales, operating Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.81 Example	330000, 800260

(b) disclose a qualitative description of the nature of expenses included in each function line item.

83 **An entity that presents one or more line items comprising expenses classified by function in the operating category of the statement of profit or loss shall also disclose in a single note:**

(a) the total for each of:

(i) depreciation, comprising the amounts required to be disclosed by [paragraph 73(e)(vii) of IAS 16 Property, Plant and Equipment](#), [paragraph 79(d)(iv) of IAS 40 Investment Property](#) and [paragraph 53(a) of IFRS 16 Leases](#);

Depreciation Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.133 a (i) Disclosure	800260

(ii) amortisation, comprising the amount required to be disclosed by [paragraph 118(e)(vi) of IAS 38 Intangible Assets](#);

Amortisation Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.133 a	800260

(ii) Disclosure

employee benefits, comprising the amount for employee benefits recognised by an entity applying IAS 19 Employee Benefits and the amount for services received from employees recognised by an entity applying IFRS 2 Share-based Payment;

(iii)	Employee benefits expenses, operating Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.80 Example Effective 2027-01-01 IFRS 18.81 Example Effective 2027-01-01 IFRS 19.133 a (iii) Disclosure	330000, 800260, 834480

impairment losses and reversals of impairment losses, comprising the amounts required to be disclosed by paragraphs 126(a) and 126(b) of IAS 36 Impairment of Assets; and

(iv)	Impairment loss (reversal of impairment loss) recognised in profit or loss Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.133 a (iv) Disclosure	800200, 800260

write-downs and reversals of write-downs of inventories, comprising the amounts required to be disclosed by paragraphs 36(e) and 36(f) of IAS 2; and

(v)	Write-down (reversal of write-down) of inventories, operating Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.B79 a Disclosure Effective 2027-01-01 IFRS 19.133 a (v) Disclosure	800200, 800260

(b) for each total listed in (a)(i)–(v):

(i) the amount related to each line item in the operating category (see paragraph B84); and

Amortisation [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Depreciation [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Disclosure of attribution of specified expenses by nature [table] Disclosure	Table	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Disclosure of attribution of specified expenses by nature [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Employee benefits [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Impairment loss (reversal of impairment loss) [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260
Nature expenses [axis] Disclosure	Axis	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260, 990000

Nature expenses [domain] Disclosure	Domain	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260, 990000
Write-down (reversal of write-down) of inventories [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.133 b (i) Disclosure	800260

(ii) a list of any line items outside the operating category that also include amounts relating to the total.

[Refer:Illustrative Examples Part I, Note 1—Specified expenses by nature]

Disclosure of specified expenses by nature [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.133 Disclosure	800260

Paragraph 41 requires an entity to disaggregate items to provide material information. However, an entity that applies paragraph 83 is exempt from disclosing:

84 (a) in relation to function line items presented in the operating category of the statement of profit or loss—disaggregated information about the amounts of nature expenses included in each line item, beyond the amounts specified in paragraph 83; and

(b) in relation to nature expenses specifically required by an IFRS Accounting Standard to be disclosed in the notes—disaggregated information about the amounts of the expenses included in each function line item presented in the operating category of the statement of profit or loss, beyond the amounts specified in paragraph 83.

85 The exemption in paragraph 84 relates to disaggregation of operating expenses. However, it does not exempt an entity from applying specific disclosure requirements relating to those expenses in IFRS Accounting Standards.

Statement presenting comprehensive income

[Refer:Illustrative Examples Part I, Statement presenting comprehensive income]

86 **An entity shall present in the statement presenting comprehensive income totals for:**

(a) profit or loss;

Profit (loss) Disclosure	Monetary Duration, Credit	IFRS 1.24 b Disclosure IFRS 1.32 a (ii) Disclosure IFRS 12.B10 b Example IFRS 17.113 b Example Effective 2027-01-01 IFRS 18.107 c (i) Disclosure Effective 2027-01-01 IFRS 18.69 c Disclosure Effective 2027-01-01 IFRS 19.24 b Disclosure Effective 2027-01-01 IFRS 19.28 a (ii) Disclosure IFRS 8.23 Disclosure IFRS 8.28 b Disclosure	330000, 410000, 420000, 610000, 800270, 819100, 825700, 836600, 842000, 871100

Other comprehensive income

[Refer:

paragraphs B86–B89

Basis for Conclusions paragraphs BCZ277–BCZ284]

88 **An entity shall classify income and expenses included in the statement presenting comprehensive income in one of two categories:**

(a) income and expenses that will be reclassified to profit or loss when specific conditions are met; and

(b) income and expenses that will not be reclassified to profit or loss.

Other comprehensive income that will be reclassified to profit or loss, before tax Common practice	Monetary Duration, Credit	420000
Other comprehensive income that will not be reclassified to profit or loss, net of tax Example	Monetary Duration, Credit	410000

89 **An entity shall present, in each of the categories of the statement presenting comprehensive income, line items for:**

(a) the share of other comprehensive income of associates and joint ventures accounted for using the equity method; and

Share of other comprehensive income of associates and joint ventures accounted for using equity method that will be reclassified to profit or loss, before tax Disclosure	Monetary Duration, Credit	420000, 800200
Share of other comprehensive income of associates and joint ventures accounted for using equity method that will be reclassified to profit or loss, net of tax Disclosure	Monetary Duration, Credit	410000, 800200
Share of other comprehensive income of associates and joint ventures accounted for using equity method that will not be reclassified to profit or loss, before tax Disclosure	Monetary Duration, Credit	420000, 800200
Share of other comprehensive income of associates and joint ventures accounted for using equity method that will not be reclassified to profit or loss, net of tax Disclosure	Monetary Duration, Credit	410000, 800200

(b) other items of other comprehensive income.

Other comprehensive income that will not be reclassified to profit or loss, before tax Common practice	Monetary Duration, Credit	420000
Other comprehensive income that will be reclassified to profit or loss, net of tax Example	Monetary Duration, Credit	410000

90 **An entity shall present in the statement presenting comprehensive income or disclose in the notes *reclassification adjustments* relating to components of other comprehensive income (see paragraphs B88–B89).**

[Refer:Illustrative Examples Part I, Note 3—Analysis of reclassification adjustments]

Reclassification adjustments on cash flow hedges, before tax Disclosure	Monetary Duration, Debit		420000
Reclassification adjustments on cash flow hedges, net of tax Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.62 b (iii) Disclosure IFRS 7.24C b (iv) Disclosure IFRS 7.24E a Disclosure	410000, 822390, 861000
Reclassification adjustments on change in value of foreign currency basis spreads, before tax Disclosure	Monetary Duration, Debit		420000
Reclassification adjustments on change in value of foreign currency basis spreads, net of tax Disclosure	Monetary Duration, Debit		410000
Reclassification adjustments on change in value of forward elements of forward contracts, before tax Disclosure	Monetary Duration, Debit		420000
Reclassification adjustments on change in value of forward elements of forward contracts, net of tax Disclosure	Monetary Duration, Debit		410000
Reclassification adjustments on change in value of time value of options, before tax Disclosure	Monetary Duration, Debit		420000
Reclassification adjustments on change in value of time value of options, net of tax Disclosure	Monetary Duration, Debit		410000
Reclassification adjustments on exchange differences on translation of foreign operations, before tax Disclosure	Monetary Duration, Debit	IAS 21.48 Disclosure	420000
Reclassification adjustments on exchange differences on translation of foreign operations, net of tax Disclosure	Monetary Duration, Debit	IAS 21.48 Disclosure	410000
Reclassification adjustments on finance income (expenses) from reinsurance contracts held excluded from profit or loss, before tax Disclosure	Monetary Duration, Debit	IFRS 17.82 Disclosure IFRS 17.91 a Disclosure IFRS 17.B135 a Disclosure	420000
Reclassification adjustments on finance income (expenses) from reinsurance contracts held excluded from profit or loss, net of tax Disclosure	Monetary Duration, Debit	IFRS 17.82 Disclosure IFRS 17.91 a Disclosure IFRS 17.B135 a Disclosure	410000
Reclassification adjustments on financial assets measured at fair value through other comprehensive income, before tax Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.56 a (v) Disclosure IFRS 7.20 a (viii) Disclosure	420000, 822390
Reclassification adjustments on financial assets measured at fair value through other comprehensive income, net of tax Disclosure	Monetary Duration, Debit		410000

Reclassification adjustments on hedges of net investments in foreign operations, before tax Disclosure	Monetary Duration, Debit	IAS 39.102 Disclosure IFRS 9.6.5.14 Disclosure	420000
Reclassification adjustments on hedges of net investments in foreign operations, net of tax Disclosure	Monetary Duration, Debit	IAS 39.102 Disclosure Effective 2027-01-01 IFRS 19.62 b (iii) Disclosure IFRS 7.24C b (iv) Disclosure IFRS 7.24E a Disclosure IFRS 9.6.5.14 Disclosure	410000, 822390, 861000
Reclassification adjustments on insurance finance income (expenses) from insurance contracts issued excluded from profit or loss, before tax Disclosure	Monetary Duration, Debit	IFRS 17.91 a Disclosure IFRS 17.B135 a Disclosure	420000
Reclassification adjustments on insurance finance income (expenses) from insurance contracts issued excluded from profit or loss, net of tax Disclosure	Monetary Duration, Debit	IFRS 17.91 a Disclosure IFRS 17.B135 a Disclosure	410000

91 Other IFRS Accounting Standards specify whether and when amounts previously included in other comprehensive income are reclassified to profit or loss. Such reclassifications are referred to in this Standard as reclassification adjustments. An entity includes a reclassification adjustment with the related component of other comprehensive income in the period that the adjustment is reclassified to profit or loss. An entity might have included these amounts in other comprehensive income as unrealised gains in the current or prior periods. An entity shall deduct them from other comprehensive income in the period in which the realised gains are reclassified to profit or loss to avoid including them in total comprehensive income twice.

92 An entity disclosing reclassification adjustments in the notes shall present in the statement presenting comprehensive income the items of other comprehensive income after any related reclassification adjustments.

93 **An entity shall either present in the statement presenting comprehensive income or disclose in the notes the amount of income taxes relating to each item of other comprehensive income, including reclassification adjustments (see paragraphs 61A and 63 of IAS 12).**

[Refer:Illustrative Examples Part I, Note 4—Analysis of tax effects relating to each component of other comprehensive income]

Income tax relating to exchange differences on translation of foreign operations and hedges of net investments in foreign operations included in other comprehensive income Common practice	Monetary Duration, Debit	IAS 12.81 ab Common practice	800200
Income tax relating to cash flow hedges included in other comprehensive income Disclosure	Monetary Duration, Debit	IAS 12.81 ab Disclosure	420000, 835110
Income tax relating to change in value of foreign currency basis spreads included in other comprehensive income Disclosure	Monetary Duration, Debit	IAS 12.81 ab Disclosure	420000, 835110

Income tax relating to change in value of forward elements of forward contracts included in other comprehensive income Disclosure	Monetary Duration, Debit	IAS 12.81 ab Disclosure	420000, 835110

Other comprehensive income, before tax, gains (losses) on remeasurements of defined benefit plans Disclosure	Monetary Duration, Credit	IAS 19.135 b Common practice Effective 2027-01-01 IFRS 18.B87 Disclosure	420000, 834480
Other comprehensive income, before tax, gains (losses) on revaluation of property, plant and equipment, right-of-use assets and intangible assets Disclosure	Monetary Duration, Credit	Effective 2027-01-01 IFRS 18.B87 Disclosure	420000
Other comprehensive income, before tax, hedges of net investments in foreign operations Disclosure	Monetary Duration, Credit	IAS 39.102 a Disclosure IFRS 9.6.5.13 a Disclosure	420000, 800200
Other comprehensive income, before tax, insurance finance income (expenses) from insurance contracts issued excluded from profit or loss that will be reclassified to profit or loss Disclosure	Monetary Duration, Credit	IFRS 17.90 Disclosure Effective 2027-01-01 IFRS 18.B87 Disclosure	420000
Other comprehensive income, before tax, insurance finance income (expenses) from insurance contracts issued excluded from profit or loss that will not be reclassified to profit or loss Disclosure	Monetary Duration, Credit	IFRS 17.90 Disclosure Effective 2027-01-01 IFRS 18.B87 Disclosure	420000
Other comprehensive income, before tax, exchange differences on translation of foreign operations and hedges of net investments in foreign operations Common practice	Monetary Duration, Credit		800200
Share of other comprehensive income of associates and joint ventures accounted for using equity method, before tax Common practice	Monetary Duration, Credit		800200

If an entity selects the alternative in paragraph 94(b), it shall allocate the tax between the categories set out in paragraph 88.

95	Income tax relating to components of other comprehensive income that will be reclassified to profit or loss Disclosure	Monetary Duration, Debit	420000, 800200
	Income tax relating to components of other comprehensive income that will not be reclassified to profit or loss Disclosure	Monetary Duration, Debit	420000, 800200
	Income tax relating to share of other comprehensive income of associates and joint ventures accounted for using equity method that will be reclassified to profit or loss Disclosure	Monetary Duration, Debit	420000, 800200
	Income tax relating to share of other comprehensive income of associates and joint ventures accounted for using equity method that will not be reclassified to profit or loss Disclosure	Monetary Duration, Debit	420000, 800200

Statement of financial position

[Refer:Illustrative Examples Part I, Statement of financial position]

Classification of assets and liabilities as current or non-current

[Refer:paragraphs B90–B93]

96 **An entity shall present current and non-current assets, and current and non-current liabilities, as separate classifications in its statement of financial position in accordance with paragraphs 99–102 except when a presentation based on liquidity provides a more useful structured summary. When that exception applies, an entity shall present all assets and liabilities in order of liquidity (see paragraphs B90–B93).**

97 **Whichever method of presentation is adopted, an entity shall disclose the amount expected to be recovered or settled after more than 12 months for each asset and liability line item that combines amounts expected to be recovered or settled:**

(a)	**no more than 12 months after the reporting period; and**		
	Not later than one year [member] Disclosure Member	IFRS 16.94 Disclosure IFRS 16.97 Disclosure IFRS 17.132 b Disclosure Effective 2027-01-01 IFRS 19.122 a (i) Disclosure Effective 2027-01-01 IFRS 19.124 a Disclosure IFRS 7.B11 Example IFRS 7.IG31A Example	810000, 822390, 832610, 836600, 890000

Current assets

[Refer:

paragraphs B94–B95

Basis for Conclusions paragraph BCZ288]

An entity shall classify an asset as current when (see paragraphs B94–B95):

(a) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;E5
(b) it holds the asset primarily for the purpose of trading;
(c) it expects to realise the asset within 12 months after the reporting period; or
(d) the asset is cash or a cash equivalent (as defined in IAS 7), unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.E6

99	Current assets Disclosure	Monetary Instant, Debit	IFRS 12.B10 b Example IFRS 12.B12 b (i) Disclosure	210000, 800100, 825700, 842000
	Current assets other than non-current assets or disposal groups classified as held for sale or as held for distribution to owners Disclosure	Monetary Instant, Debit		210000

[IFRIC® *Update*, June 2005, Agenda Decision, ‘IAS 1 Normal operating cycle’

E5 The IFRIC considered an issue regarding the classification of current and non–current assets by reference to an entity's normal operating cycle. It was asked whether the guidance in paragraph 57(a) of IAS 1 [now paragraph 99(a) of IFRS 18 Presentation and Disclosure in Financial Statements] was applicable only if an entity had a predominant operating cycle. This is particularly relevant to the inventories of conglomerates which, on a narrow reading of the wording, might always have to refer to the twelve–month criterion in paragraph 57(c) of IAS 1 [now paragraph 99(c) of IFRS 18], rather than the operating cycle criterion.

The IFRIC decided not to consider the question further because, in its view, it was clear that the wording should be read in both the singular and the plural and that it was the nature of inventories in relation to the operating cycle that was relevant to classification. [Furthermore, if inventories of different cycles were held, and it was material to readers' understanding of an entity's financial position, then the general requirement in paragraph 71 (now paragraph 57) of IAS 1 already required disclosure of further information.] [The requirements in IAS 1 referred to in this paragraph are not all brought forward unchanged to IFRS 18. The Committee’s conclusion regarding the application of the requirements in IAS 1 might not apply to the requirements in IFRS 18.]

[IFRIC® *Update*, March 2022, Agenda Decision, IAS 7 Statement of Cash Flows—Demand Deposits with Restrictions on Use arising from a Contract with a Third Party’

The Committee received a request about whether an entity includes a demand deposit as a component of cash and cash equivalents in its statements of cash flows and financial position when the demand deposit is subject to contractual restrictions on use agreed with a third party.

E6 ...

The Committee concluded that the principles and requirements in IFRS Accounting Standards provide an adequate basis for an entity to determine whether to include demand deposits subject to contractual restrictions on use agreed with a third party as a component of cash and cash equivalents in its statements of cash flows and financial position. Consequently, the Committee decided not to add a standard-setting project to the work plan.

[The full text of the Agenda Decision is reproduced after paragraph 6 of IAS 7.]]

100 An entity shall classify all assets other than those specified in paragraph 99 as non-current.

Non-current assets Disclosure	Monetary Instant, Debit	IFRS 12.B10 b Example IFRS 12.B12 b (ii) Disclosure	210000, 825700, 842000

Current liabilities

E7 [IFRIC® *Update*, December 2020, Agenda Decision, ‘Supply Chain Financing Arrangements—Reverse Factoring’

The Committee received a request about reverse factoring arrangements. Specifically, the request asked:

a. how an entity presents liabilities to pay for goods or services received when the related invoices are part of a reverse factoring arrangement; and
b. what information about reverse factoring arrangements an entity is required to disclose in its financial statements.

In a reverse factoring arrangement, a financial institution agrees to pay amounts an entity owes to the entity's suppliers and the entity agrees to pay the financial institution at the same date as, or a date later than, suppliers are paid.

Presentation in the statement of financial position

IAS 1 Presentation of Financial Statements [now IFRS 18 Presentation and Disclosure in Financial Statements] specifies how an entity is required to present its liabilities in the statement of financial position.

[Paragraph 54 of IAS 1 requires an entity to present 'trade and other payables' separately from other financial liabilities. 'Trade and other payables' are sufficiently different in nature or function from other financial liabilities to warrant separate presentation (paragraph 57 of IAS 1). Paragraph 55 of IAS 1 requires an entity to present additional line items (including by disaggregating the line items listed in paragraph 54) when such presentation is relevant to an understanding of the entity's financial position. Consequently, an entity is required to determine whether to present liabilities that are part of a reverse factoring arrangement:

a. within trade and other payables;
b. within other financial liabilities; or
c. as a line item separate from other items in its statement of financial position.

Paragraph 11(a) of IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* states that 'trade payables are liabilities to pay for goods or services that have been received or supplied and have been invoiced or formally agreed with the supplier'. Paragraph 70 of IAS 1 explains that 'some current liabilities, such as trade payables… are part of the working capital used in the entity's normal operating cycle'. The Committee therefore concluded that an entity presents a financial liability as a trade payable only when it:

a. represents a liability to pay for goods or services;
b. is invoiced or formally agreed with the supplier; and
c. is part of the working capital used in the entity's normal operating cycle.

Paragraph 29 of IAS 1 requires an entity to 'present separately items of a dissimilar nature or function unless they are immaterial'. Paragraph 57 specifies that line items are included in the statement of financial position when the size, nature or function of an item (or aggregation of similar items) is such that separate presentation is relevant to an understanding of the entity's financial position. Accordingly, the Committee concluded that, applying IAS 1, an entity presents liabilities that are part of a reverse factoring arrangement:

a. as part of 'trade and other payables' only when those liabilities have a similar nature and function to trade payables—for example, when those liabilities are part of the working capital used in the entity's normal operating cycle.
b. separately when the size, nature or function of those liabilities makes separate presentation relevant to an understanding of the entity's financial position. In assessing whether it is required to present such liabilities separately (including whether to disaggregate trade and other payables), an entity considers the amounts, nature and timing of those liabilities (paragraphs 55 and 58 of IAS 1).

The Committee observed that an entity assessing whether to present liabilities that are part of a reverse factoring arrangement separately might consider factors including, for example:

a. whether additional security is provided as part of the arrangement that would not be provided without the arrangement.
b. the extent to which the terms of liabilities that are part of the arrangement differ from the terms of the entity's trade payables that are not part of the arrangement.] [The requirements in IAS 1 referred to in these paragraphs are not all brought forward unchanged to IFRS 18. The Committee's conclusion regarding the application of the requirements in IAS 1 might not apply to the requirements in IFRS 18.]

Derecognition of a financial liability

An entity assesses whether and when to derecognise a liability that is (or becomes) part of a reverse factoring arrangement applying the derecognition requirements in IFRS 9 Financial Instruments.

An entity that derecognises a trade payable to a supplier and recognises a new financial liability to a financial institution applies IAS 1 [now IFRS 18] in determining how to present that new liability in its statement of financial position (see 'Presentation in the statement of financial position').

...

Notes to the financial statements

...

An entity applies judgement in determining whether to provide additional disclosures in the notes about the effect of reverse factoring arrangements on its financial position, financial performance and cash flows. The Committee observed that:

a. assessing how to present liabilities and cash flows related to reverse factoring arrangements may involve judgement. An entity discloses the judgements that management has made in this respect if they are among the judgements made that have the most significant effect on the amounts recognised in the financial statements (paragraph 122 of IAS 1 [now paragraph 27G of IAS 8 Basis of Preparation of Financial Statements]).
b. reverse factoring arrangements may have a material effect on an entity's financial statements. An entity provides information about reverse factoring arrangements in its financial statements to the extent that such information is relevant to an understanding of any of those financial statements (paragraph 112 of IAS 1 [now paragraph 113 of IFRS 18]).

The Committee noted that making materiality judgements involves both quantitative and qualitative considerations.

...

The Committee concluded that the principles and requirements in IFRS Standards provide an adequate basis for an entity to determine the presentation of liabilities that are part of reverse factoring arrangements, the presentation of the related cash flows, and the information to disclose in the notes about, for example, liquidity risks that arise in such arrangements. Consequently, the Committee decided not to add a standard-setting project on these matters to the work plan.]

E8 [IFRIC® *Update*, September 2019, Agenda Decision, 'IAS 1 Presentation of Financial Statements—Presentation of Liabilities or Assets Related to Uncertain Tax Treatments'

The Committee received a request about the presentation of liabilities or assets related to uncertain tax treatments recognised applying IFRIC 23 Uncertainty over Income Tax Treatments (uncertain tax liabilities or assets). The request asked whether, in its statement of financial position, an entity is required to present uncertain tax liabilities as current (or deferred) tax liabilities or, instead, can present such liabilities within another line item such as provisions. A similar question could arise regarding uncertain tax assets.

The definitions in IAS 12 of current tax and deferred tax liabilities or assets

When there is uncertainty over income tax treatments, paragraph 4 of IFRIC 23 requires an entity to 'recognise and measure its current or deferred tax asset or liability applying the requirements in IAS 12 based on taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined applying IFRIC 23'. Paragraph 5 of IAS 12 Income Taxes defines:

a. current tax as the amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for a period; and
b. deferred tax liabilities (or assets) as the amounts of income taxes payable (recoverable) in future periods in respect of taxable (deductible) temporary differences and, in the case of deferred tax assets, the carryforward of unused tax losses and credits.

Consequently, the Committee observed that uncertain tax liabilities or assets recognised applying IFRIC 23 are liabilities (or assets) for current tax as defined in IAS 12, or deferred tax liabilities or assets as defined in IAS 12.

Presentation of uncertain tax liabilities (or assets)

Neither IAS 12 nor IFRIC 23 contain requirements on the presentation of uncertain tax liabilities or assets. Therefore, the presentation requirements in IAS 1 [now IFRS 18 Presentation and Disclosure in Financial Statements] apply. Paragraph 54 of IAS 1 states that 'the statement of financial position shall include line items that present: …(n) liabilities and assets for current tax, as defined in IAS 12; (o) deferred tax liabilities and deferred tax assets, as defined in IAS 12…' [now paragraphs 103(q) and 103(r) of IFRS 18].

[Paragraph 57 of IAS 1 states that paragraph 54 'lists items that are sufficiently different in nature or function to warrant separate presentation in the statement of financial position'. Paragraph 29 requires an entity to 'present separately items of a dissimilar nature or function unless they are immaterial'.

Accordingly, the Committee concluded that, applying IAS 1, an entity is required to present uncertain tax liabilities as current tax liabilities (paragraph 54(n)) or deferred tax liabilities (paragraph 54(o)); and uncertain tax assets as current tax assets (paragraph 54(n)) or deferred tax assets (paragraph 54(o)).] [The requirements in IAS 1 referred to in these paragraphs are not all brought forward unchanged to IFRS 18. The Committee's conclusion regarding the application of the requirements in IAS 1 might not apply to the requirements in IFRS 18.]

The Committee concluded that the principles and requirements in IFRS Standards provide an adequate basis for an entity to determine the presentation of uncertain tax liabilities and assets. Consequently, the Committee decided not to add the matter to its standard-setting agenda.]

An entity shall present in the statement of financial position:

(a) **non-controlling interests; and**

[Refer:IFRS 10 Appendix A (definition of non-controlling interestnon-controlling interest)]

104	Non-controlling interests Disclosure	Monetary Instant, Credit	IFRS 10.22 Disclosure IFRS 12.12 f Disclosure	210000, 220000, 825700

(b) **issued capital and reserves attributable to owners of the parent.**

Equity attributable to owners of parent Disclosure	Monetary Instant, Credit		210000, 220000

105 Paragraphs B109–B111 set out requirements on how an entity uses its judgement to determine whether to present additional line items in the statement of financial position or disclose items in the notes.

106 Subject to paragraph 96, this Standard does not prescribe the order or format in which an entity presents items in the statement of financial position. In addition, the descriptions used and the ordering of items or aggregation of similar items may be amended according to the nature of the entity and its

transactions, to provide a useful structured summary of the entity's assets, liabilities and equity. For example, a financial institution may amend the descriptions in paragraph 103 to provide a useful structured summary of the assets, liabilities and equity of a financial institution.

Statement of changes in equity

Purchase of treasury shares Common practice	Monetary Duration, Debit	800400
Reduction of issued capital Common practice	Monetary Duration, Debit	800400
Sale or issue of treasury shares Common practice	Monetary Duration, Credit	800400
Share issue related cost, operating Common practice	Monetary Duration, Debit	800400
Increase (decrease) in equity Disclosure	Monetary Duration, Credit	610000

Increase (decrease) through other changes, equity Disclosure	Monetary Duration, Credit		610000
Increase (decrease) through treasury share transactions, equity Disclosure	Monetary Duration, Credit		610000
Cumulative effect at date of initial application [axis] Common practice	Axis		610000, 915000, 990000
Increase (decrease) due to changes in accounting policy required by IFRSs, cumulative effect at date of initial application [member] Common practice	Member		610000, 915000
Opening balance after adjustment, cumulative effect at date of initial application [member] Common practice	Member		610000, 915000
Opening balance before adjustment, cumulative effect at date of initial application [member] Common practice	Member		610000, 915000, 990000
Components of equity [axis] Disclosure	Axis		610000, 800400, 861000, 990000
Components of equity [domain] Disclosure	Domain		610000, 800400, 861000, 990000
Equity attributable to owners of parent [member] Disclosure	Member		610000, 861000
Issued capital [member] Disclosure	Member		610000, 861000
Non-controlling interests [member] Disclosure	Member		610000, 861000
Other equity interest [member] Disclosure	Member		610000, 861000
Other reserves [member] Disclosure	Member	Effective 2027-01-01 IFRS 18.130 b Disclosure Effective 2027-01-01 IFRS 19.160 b Disclosure	610000, 861000
Retained earnings [member] Disclosure	Member	Effective 2027-01-01 IFRS 18.111 Example	610000, 861000
Share premium [member] Disclosure	Member		610000, 861000
Statement of changes in equity [table] Disclosure	Table		610000
Treasury shares [member] Disclosure	Member		610000, 861000

108 IAS 8 requires retrospective adjustments for changes in accounting policies, to the extent practicable, except when the transition requirements in another IFRS Accounting Standard require otherwise. IAS 8 also requires restatements to correct errors to be made retrospectively, to the extent practicable. Retrospective adjustments and retrospective restatements are not changes in equity, but they are adjustments to the opening balance of retained earnings, except when IFRS Accounting Standards require retrospective adjustment of another component of equity. Paragraph 107(b) requires an entity to present in the statement of changes in equity the total adjustment to each component of equity resulting from changes in accounting policies and, separately, from corrections of errors. An entity shall present these adjustments for each prior reporting period and the beginning of the period.

Information to be presented in the statement of changes in equity or disclosed in the notes

[Refer:Basis for Conclusions paragraph BCZ318]

For each component of equity an entity shall either present in the statement of changes in equity or disclose in the notes an analysis of other comprehensive income by item (see paragraph 107(c)(ii)).

109	Disclosure of analysis of other comprehensive income by item [table] Disclosure	Table		861000
	Disclosure of analysis of other comprehensive income by item [text block] Disclosure	Text block		861000

An entity shall either present in the statement of changes in equity or disclose in the notes the amount of dividends recognised as distributions to owners during the reporting period, and the related amount of dividends per share.

110	Dividends recognised as distributions to owners Disclosure	Monetary Duration, Debit	Effective 2027-01-01 IFRS 19.138 Disclosure	610000
	Dividends recognised as distributions to owners per share Disclosure	Per share	Effective 2027-01-01 IFRS 19.138 Disclosure	810000

111 In paragraph 107, the components of equity include, for example, each class of contributed equity, the accumulated balance of each class of other comprehensive income and retained earnings.

Accumulated other comprehensive income [member] Common practice	Member		610000, 861000, 861200
Additional paid-in capital [member] Common practice	Member		800400
Capital redemption reserve [member] Common practice	Member		800400
Capital reserve [member] Common practice	Member		800400
Merger reserve [member] Common practice	Member		800400
Miscellaneous other reserves [member] Common practice	Member		800400
Reserve of equity component of convertible instruments [member] Common practice	Member		800400
Retained earnings, excluding profit (loss) for reporting period [member] Common practice	Member		800400
Retained earnings, profit (loss) for reporting period [member] Common practice	Member		800400
Statutory reserve [member] Common practice	Member		800400
Warrant reserve [member] Common practice	Member		800400
Reserve of cash flow hedges [member] Example	Member	IFRS 9.6.5.11 Disclosure	610000, 861000, 861200
Reserve of change in fair value of financial liability attributable to change in credit risk of liability [member] Example	Member		610000, 861000, 861200
Reserve of change in value of foreign currency basis spreads [member] Example	Member	IFRS 9.6.5.16 Disclosure	610000, 861000, 861200
Reserve of change in value of forward elements of forward contracts [member] Example	Member	IFRS 9.6.5.16 Disclosure	610000, 861000, 861200

Reserve of change in value of time value of options [member] Example	Member	IFRS 9.6.5.15 Disclosure	610000, 861000, 861200
Reserve of exchange differences on translation [member] Example	Member	IAS 21.52 b Disclosure Effective 2027-01-01 IFRS 19.218 b Disclosure	610000, 861000, 861200
Reserve of finance income (expenses) from reinsurance contracts held excluded from profit or loss [member] Example	Member		610000, 861000, 861200
Reserve of gains and losses from investments in equity instruments [member] Example	Member		610000, 861000, 861200
Reserve of gains and losses on financial assets measured at fair value through other comprehensive income [member] Example	Member		610000, 861000, 861200
Reserve of gains and losses on hedging instruments that hedge investments in equity instruments [member] Example	Member		610000, 861000, 861200
Reserve of insurance finance income (expenses) from insurance contracts issued excluded from profit or loss that will be reclassified to profit or loss [member] Example	Member		610000, 861000, 861200
Reserve of insurance finance income (expenses) from insurance contracts issued excluded from profit or loss that will not be reclassified to profit or loss [member] Example	Member		610000, 861000, 861200
Reserve of remeasurements of defined benefit plans [member] Example	Member		610000, 861000, 861200
Reserve of share-based payments [member] Example	Member		610000, 861000, 861200
Retained earnings [member] Example	Member	Effective 2027-01-01 IFRS 18.107 Disclosure	610000, 861000
Revaluation surplus [member] Example	Member	IAS 16.39 Disclosure IFRS 1.IG10 Disclosure	610000, 861000, 861200

112 Changes in an entity’s equity between the beginning and the end of the reporting period reflect the increase or decrease in its net assets during the period. Except for changes resulting from transactions with owners in their capacity as owners (such as equity contributions, reacquisitions of the entity’s own equity instruments and dividends) and transaction costs directly related to such transactions, the overall change in equity during a period represents the total amount of income and expenses, including gains and losses, generated by the entity’s activities during that period.

Notes

Structure

[Refer:

paragraph B112

Basis for Conclusions paragraphs BCZ319–BC324]

113 **An entity shall disclose in the notes:**

(a) **information about the basis of preparation of the financial statements (see paragraphs 6A–6N of IAS 8) and the specific accounting policies used (see paragraphs 27A–27I of IAS 8);**

(b) **information required by IFRS Accounting Standards that is not presented in the primary financial statements; and**

(c) **other information that is not presented in the primary financial statements, but is necessary for an understanding of any of them (see paragraph 20).**

Advertising expense, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.24 Common practice	800200
All types of depositary receipts [member] Common practice	Member		838000
Asset-backed debt instruments held Common practice	Monetary Instant, Debit		800100
Assets (liabilities) Common practice	Monetary Instant, Debit	IFRS 1.IG63 Example	800100
Auditor's remuneration for audit services, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.24 Common practice	880000
Auditor's remuneration for other services, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.24 Common practice	880000
Auditor's remuneration for tax services, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.24 Common practice	880000
Auditor's remuneration, operating Common practice	Monetary Duration, Debit	Effective 2027-01-01 IFRS 18.24 Common practice	880000
Authorised capital commitments but not contracted for Common practice	Monetary Instant, Credit		880000

114 **An entity shall, as far as practicable, present notes in a systematic manner (see paragraph B112). In determining a systematic manner, the entity shall consider the effect on the understandability and comparability of its financial statements. An entity shall cross-reference each item in the primary financial statements to any related information in the notes. If amounts disclosed in the notes are included in one or more line items in the primary financial statements, an entity shall disclose in the note the line item(s) in which the amounts are included.**

Management-defined performance measures

[Refer:

paragraphs B113–B142

Basis for Conclusions paragraphs BC325–BC390]

Identification of management-defined performance measures

[Refer:

paragraphs B113–B131

Supporting materials Figure 6—Identifying management-defined performance measures

Basis for Conclusions paragraphs BC328–BC368]

117 **A *management-defined performance measure* is a subtotal of income and expenses that (see paragraphs B113–B122):**

(a) an entity uses in public communications outside financial statements;

(b) an entity uses to communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole; and

(c) is not listed in paragraph 118, or specifically required to be presented or disclosed by IFRS Accounting Standards.

Subtotals of income and expenses that are not management-defined performance measure are:

118

gross profit or loss (revenue minus cost of sales) and similar subtotals (see paragraph B123);

(a)	Gross profit (loss), operating Disclosure	Monetary Duration, Credit		330000, 800270

operating profit or loss before depreciation, amortisation and impairments within the scope of IAS 36;

(b)	Operating profit (loss) before depreciation, amortisation and impairments, operating Disclosure	Monetary Duration, Credit		330000, 800270

operating profit or loss and income and expenses from all investments accounted for using the equity method;

(c)	Operating profit (loss) and income (expenses) from all investments accounted for using equity method Disclosure	Monetary Duration, Credit		330000, 800270

for an entity that applies paragraph 73, a subtotal comprising operating profit or loss and all income and expenses classified in the investing category;

(d)	Operating profit (loss) and all income (expenses) classified in investing category Disclosure	Monetary Duration, Credit		330000, 800270

profit or loss before income taxes; and

(e)	Profit (loss) before income taxes Disclosure	Monetary Duration, Credit	IFRS 5.33 b (i) Disclosure IFRS 8.23 Example IFRS 8.28 b Example	330000, 800270, 825900, 871100

profit or loss from continuing operations.

(f)	Profit (loss) from continuing operations Disclosure	Monetary Duration, Credit	IFRS 12.B12 b (vi) Disclosure Effective 2027-01-01 IFRS 18.86 a Disclosure IFRS 8.23 Disclosure IFRS 8.28 b Disclosure	330000, 800270, 825700, 842000, 871100

119 **An entity shall presume that a subtotal of income and expenses that it uses in public communications outside its financial statements communicates to users of financial statements management's view of an aspect of the financial performance of the entity as a whole, unless, applying paragraph 120, the entity rebuts the presumption.**

120 An entity is permitted to rebut the presumption described in paragraph 119 and assert that a subtotal does not communicate management's view of an aspect of the financial performance of the entity as a

whole, but only if it has reasonable and supportable information available that demonstrates the basis for the assertion (see paragraphs B124–B131).

Disclosure of management-defined performance measures

[Refer:

paragraphs B132–B142

Basis for Conclusions paragraphs BC369–BC390

Illustrative Examples Part I, Note 2—Management-defined performance measures]

121 **The objective of the disclosures for management-defined performance measures is for an entity to provide information to help a user of financial statements understand:**

(a) the aspect of financial performance that, in management's view, is communicated by a management-defined performance measure; and

(b) how the management-defined performance measure compares with the measures defined by IFRS Accounting Standards.

122 **An entity shall disclose information about all measures that meet the definition of management-defined performance measures in paragraph 117 in a single note (see paragraphs B132–B133). This note shall include a statement that the management-defined performance measures provide management's view of an aspect of the financial performance of the entity as a whole and are not necessarily comparable with measures sharing similar labels or descriptions provided by other entities.**

Disclosure of management-defined performance measures [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.143 Disclosure	800270
Management-defined performance measures [axis] Disclosure	Axis	Effective 2027-01-01 IFRS 18.123 c Disclosure Effective 2027-01-01 IFRS 19.143 Disclosure Effective 2027-01-01 IFRS 19.144 c Disclosure	800270, 990000

123 **An entity shall label and describe each management-defined performance measure in a clear and understandable manner that does not mislead users of financial statements (see paragraphs B134–B135). For each management-defined performance measure, the entity shall disclose:**

(a) a description of the aspect of financial performance that, in management's view, is communicated by the management-defined performance measure. This description shall

include explanations of why, in management's view, the management-defined performance measure provides useful information about the entity's financial performance.

(b) how the management-defined performance measure is calculated.

(c) a reconciliation between the management-defined performance measure and the most directly comparable subtotal listed in paragraph 118 or total or subtotal specifically required to be presented or disclosed by IFRS Accounting Standards (see paragraphs B136–B140).

All reconciling items [member] Disclosure	Member	Effective 2027-01-01 IFRS 19.144 c Disclosure	800270

(d) the income tax effect (determined by applying paragraph B141) and the effect on non-controlling interests for each item disclosed in the reconciliation required by (c).

(e) a description of how the entity applies paragraph B141 to determine the income tax effect required by (d).

124 If an entity changes how it calculates a management-defined performance measure, adds a new management-defined performance measure, ceases using a previously disclosed management-defined performance measure or changes how it determines the income tax effects of the reconciling items required by paragraph 123(d), it shall disclose:

(a) an explanation that enables users of financial statements to understand the change, addition or cessation and its effects.

(b) the reasons for the change, addition or cessation.

(c) restated comparative information to reflect the change, addition or cessation unless it is impracticable to do so. An entity's selection of a management-defined performance measure is not an accounting policy choice. Nonetheless, in assessing whether restating the comparative information is impracticable, an entity shall apply the requirements in paragraphs 50–53 of IAS 8.

If an entity does not disclose the restated comparative information required by paragraph 124(c) because it is impracticable to do so, it shall disclose that fact.

125	Restated comparative information for MPMs not disclosed because of impracticability Disclosure	True/False	Effective 2027-01-01 IFRS 19.146 Disclosure	810000

Capital

[Refer:Basis for Conclusions paragraphs BCZ391–BCZ406]

An entity shall disclose in the notes information that enables users of financial statements to evaluate the entity's objectives, policies and processes for managing capital.

126 [Refer:Illustrative Examples Example III-1]

Disclosure of objectives, policies and processes for managing capital [text block] Disclosure	Text block		800500, 810000

127 To comply with paragraph 126 an entity shall disclose in the notes:

(a) qualitative information about its objectives, policies and processes for managing capital, including:

(i) a description of what it manages as capital;

(ii) when an entity is subject to externally imposed capital requirements, the nature of those requirements and how those requirements are incorporated into the management of capital; and

(iii) how it is meeting its objectives for managing capital.

Qualitative information about entity's objectives, policies and processes for managing capital Disclosure	Text		810000

(b) summary quantitative data about what it manages as capital. Some entities regard some financial liabilities (for example, some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (for example, components arising from cash flow hedges).

Summary quantitative data about what entity manages as capital Disclosure	Text		810000

(c) any changes in (a) and (b) from the preceding reporting period.

Description of changes in entity's objectives, policies and processes for managing capital and what entity manages as capital Disclosure	Text		810000

whether during the reporting period it complied with any externally imposed capital requirements to which it is subject.

(d)	Entity complied with any externally imposed capital requirements Disclosure	True/False	810000
	Information whether entity complied with any externally imposed capital requirements Disclosure	Text	810000

when it has not complied with such externally imposed capital requirements, the consequences of such non-compliance.

(e) [Refer:Illustrative Examples Example III-2]

Information about consequences of non-compliance with externally imposed capital requirements Disclosure	Text	810000

128 An entity shall base the note disclosures in paragraph 127 on the information provided internally to key management personnel.

129 An entity may manage capital in a number of ways and be subject to a number of different capital requirements. For example, a conglomerate may include entities that undertake insurance activities and banking activities and those entities may operate in several jurisdictions. When an aggregate disclosure of capital requirements and how capital is managed would not provide useful information or would distort a financial statement user's understanding of an entity's capital resources, the entity shall disclose separate information for each capital requirement to which the entity is subject.

Capital requirements [axis] Disclosure	Axis	810000, 990000
Capital requirements [domain] Disclosure	Domain	810000, 990000
Disclosure of objectives, policies and processes for managing capital [table] Disclosure	Table	810000

Appendices

Appendix ADefined terms

This appendix is an integral part of the IFRS Accounting Standard.

aggregation

The adding together of assets, liabilities, equity, income, expenses or cash flows that share characteristics and are included in the same classification.

classification

The sorting of assets, liabilities, equity, income, expenses and cash flows based on shared characteristics.

disaggregation

The separation of an item into component parts that have characteristics that are not shared.

general purpose financial reports

Reports that provide financial information about a reporting entity that is useful to primary users in making decisions relating to providing resources to the entity. Those decisions involve decisions about:

(a) buying, selling or holding equity and debt instruments;
(b) providing or settling loans and other forms of credit; or
(c) exercising rights to vote on, or otherwise influence, the entity's management's actions that affect the use of the entity's economic resources.

General purpose financial reports include—but are not restricted to—an entity's general purpose financial statements and sustainability-related financial disclosures.

general purpose financial statements

A particular form of *general purpose financial reports* that provide information about the reporting entity's assets, liabilities, equity, income and expenses.

IFRS Accounting Standards

Accounting standards issued by the International Accounting Standards Board. They comprise:

(a) International Financial Reporting Standards;
(b) International Accounting Standards;
(c) IFRIC Interpretations; and
(d) SIC Interpretations.

IFRS Accounting Standards were previously known as International Financial Reporting Standards, IFRS, IFRSs and IFRS Standards.

[Refer:Basis for Conclusions paragraphs BC424–BC425]

management-defined performance measure

A subtotal of income and expenses that:

(a) an entity uses in public communications outside financial statements;

(b) an entity uses to communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole; and

(c) is not listed in paragraph 118 of IFRS 18, or specifically required to be presented or disclosed by IFRS Accounting Standards.

material information

Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

[Refer:

paragraphs 15 and B1–B5

Basis for Conclusions paragraphs BCZ26–BCZ44

Conceptual Framework paragraph 2.11]

[Note:IFRS Practice Statement 2 Making Materiality Judgements (Practice Statement) provides reporting entities with guidance on making materiality judgements when preparing general purpose financial statements in accordance with IFRS Accounting Standards. The Practice Statement is non-mandatory guidance developed by the International Accounting Standards Board. It is not a Standard. Therefore, its application is not required to state compliance with IFRS Accounting Standards]

notes

Information in financial statements provided in addition to that presented in the primary financial statements.

operating profit or loss

The total of all income and expenses classified in the operating category.

other comprehensive income

Items of income and expense (including reclassification adjustments) that are recognised outside profit or loss as required or permitted by other IFRS Accounting Standards.

owners

Holders of claims classified as equity.

primary financial statements

The statement(s) of financial performance, the statement of financial position, the statement of changes in equity and the statement of cash flows.

profit or loss

The total of income less expenses included in the statement of profit or loss.

profit or loss before financing and income taxes

The total of operating profit or loss and all income and expenses classified in the investing category.

reclassification adjustments

Amounts reclassified to profit or loss in the current reporting period that were included in other comprehensive income in the current or prior periods.

total comprehensive income

The change in equity during a reporting period resulting from transactions and other events, other than those changes resulting from transactions with owners in their capacity as owners.

useful structured summary

A structured summary provided in a primary financial statement of a reporting entity's recognised assets, liabilities, equity, income, expenses and cash flows that is useful for:

(a) obtaining an understandable overview of the entity's recognised assets, liabilities, equity, income, expenses and cash flows;
(b) making comparisons between entities, and between reporting periods for the same entity; and
(c) identifying items or areas about which users of financial statements may wish to seek additional information in the notes.

Appendix BApplication guidance

This appendix is an integral part of the IFRS Accounting Standard. It describes the application of paragraphs 1–132 and has the same authority as the other parts of the IFRS Accounting Standard.

General requirements for financial statements

Materiality

[Refer:

paragraph 15

Basis for Conclusions paragraphs BCZ26–BCZ44]

B1 Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

B2 Materiality depends on the nature or magnitude of information, or both. An entity assesses whether information, either individually or in combination with other information, is material in the context of its financial statements taken as a whole.

B3 Information is obscured if it is communicated in a way that would have a similar effect for primary users of financial statements to omitting or misstating that information. The following are examples of circumstances that may result in material information being obscured:

(a) material information about an item, transaction or other event is disclosed in the financial statements but the language used is vague or unclear;
(b) material information about an item, transaction or other event is scattered throughout the financial statements;
(c) dissimilar items, transactions or other events are inappropriately aggregated;
(d) similar items, transactions or other events are inappropriately disaggregated; and
(e) the understandability of the financial statements is reduced as a result of material information being hidden by immaterial information to the extent that a primary user is unable to determine what information is material.

B4 Assessing whether information could reasonably be expected to influence decisions made by the primary users of a specific reporting entity's general purpose financial statements requires an entity to consider the characteristics of those users while also considering the entity's own circumstances.

B5 Many existing and potential investors, lenders and other creditors cannot require reporting entities to provide information directly to them and must rely on general purpose financial statements for much of the financial information they need. Consequently, they are the primary users to whom general purpose financial statements are directed. Financial statements are prepared for users who have a reasonable knowledge of business and economic activities and who review and analyse the information diligently. At times, even well-informed and diligent users may need to seek the aid of an adviser to understand information about complex economic phenomena.

The roles of the primary financial statements and the notes

[Refer:

paragraphs 15–24

Basis for Conclusions paragraphs BC45–BC63]

B6 Applying paragraph 17(a), an entity provides in the notes information necessary for users of financial statements to understand the line items presented in the primary financial statements. Examples of such information include:

(a) disaggregation of the line items presented in the primary financial statements;

(b) descriptions of the characteristics of the line items presented in the primary financial statements; and

(c) information about the methods, assumptions and judgements used in recognising, measuring and presenting the items included in the primary financial statements.

B7 Applying paragraph 17(b), an entity supplements the primary financial statements with additional information necessary to achieve the objective of financial statements—that is:

(a) information specifically required by IFRS Accounting Standards (see paragraph 19)—for example:

(i) information required by IAS 37 Provisions, Contingent Liabilities and Contingent Assets about an entity's unrecognised contingent assets and contingent liabilities; and

(ii) information required by IFRS 7 Financial Instruments: Disclosures about an entity's exposure to various types of risks, such as credit risk, liquidity risk and market risk; and

(b) information additional to that specifically required by IFRS Accounting Standards (see paragraph 20).

Information presented in the primary financial statements

B8 Paragraph 23 explains that an entity need not present separately a line item in a primary financial statement if doing so is not necessary for the statement to provide a useful structured summary, even if the line item is required by IFRS Accounting Standards. For example, an entity need not present a line item listed in paragraph 75 if doing so is not necessary for the statement of profit or loss to provide a useful structured summary of income and expenses, or a line item listed in paragraph 103 if doing so is not necessary for the statement of financial position to provide a useful structured summary of assets, liabilities and equity. If an entity does not present the line items listed in paragraphs 75 and 103, it shall disclose the items in the notes if the resulting information is material (see paragraph 42).

B9 Conversely, applying paragraph 24, an entity shall present additional line items to those listed in paragraphs 75 and 103 if such presentations are necessary for the statement of profit or loss to provide a useful structured summary of income and expenses or for the statement of financial position to provide a useful structured summary of assets, liabilities and equity (see paragraphs B78–B79 and B109–B111).

Identification of the financial statements

[Refer:paragraphs 25–27]

B10 Paragraph 25 requires an entity to clearly identify the financial statements and distinguish them from other information in the same published document. An entity meets these requirements by providing appropriate headings for pages, statements, notes, columns and the like. Judgement is required in determining the best way of providing such information. For example, if an entity provides the financial statements electronically, an entity considers other ways to meet the requirements—for example, by appropriate digital tagging of information provided in the financial statements.

B11 An entity often makes financial statements more understandable by providing information in thousands or millions of units of the presentation currency. This practice is acceptable as long as the entity discloses the level of rounding and does not omit material information.

Consistency of presentation, disclosure and classification

[Refer:paragraph 30]

B12 Paragraph 30(a) requires an entity to change the presentation, disclosure or classification of items in the financial statements if it is apparent that another presentation, disclosure or classification would be more appropriate. For example, a significant acquisition or disposal, or a review of the financial statements, might suggest that the financial statements need to be changed. An entity is permitted to change the presentation, disclosure or classification of items in its financial statements only if the change provides information that is more useful to users of financial statements and if the entity is likely to continue using the revised presentation, disclosure or classification, so that inter-period comparability is not impaired. When making such changes, an entity reclassifies its comparative information in accordance with paragraphs 33–34.

Comparative information

[Refer:

paragraphs 31–40

Basis for Conclusions paragraphs BCZ64–BCZ70]

Required comparative information

B13 In some cases, narrative information provided in the financial statements for the preceding reporting period(s) continues to be relevant in the current period. For example, an entity discloses in the current period details of a legal dispute, the outcome of which was uncertain at the end of the preceding period and is yet to be resolved. Users of financial statements might benefit from the disclosure of information that the uncertainty existed at the end of the preceding period and from the disclosure of information about the steps that have been taken during the period to resolve the uncertainty.

Additional comparative information

B14 An entity may provide comparative information in addition to the comparative information required by IFRS Accounting Standards, as long as that information is prepared in accordance with IFRS Accounting Standards. This additional comparative information may consist of one or more of the primary financial statements referred to in paragraph 10, but need not comprise a complete set of financial statements. When this is the case, the entity shall disclose in the notes information for those additional primary financial statements.

B15 For example, an entity may present a third statement (or statements) of financial performance (thereby presenting the current reporting period, the preceding period and one additional comparative period). However, the entity is not required to present a third statement of financial position, a third statement of cash flows or a third statement of changes in equity (that is, an additional primary financial statement comparative). The entity is required to disclose in the notes the comparative information related to that additional statement(s) of financial performance.

Aggregation and disaggregation

Principles of aggregation and disaggregation

[Refer:

paragraphs 41–43

Basis for Conclusions paragraphs BC71–BC80]

Process of aggregation and disaggregation

B16 Financial statements result from entities processing large numbers of transactions and other events. These transactions and other events give rise to assets, liabilities, equity, income, expenses and cash flows.

B17 To apply the requirements in paragraph 41, an entity shall aggregate items based on shared characteristics (that is, aggregate items that have similar characteristics) and disaggregate items based on characteristics that are not shared (that is, disaggregate items that have dissimilar characteristics). In doing so, an entity shall:

(a) identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events;

(b) classify and aggregate assets, liabilities, equity, income, expenses and cash flows into items based on their characteristics (for example, their nature, their function, their measurement basis or another characteristic) so as to result in the presentation in the primary financial statements of line items and disclosure in the notes of items that have at least one similar characteristic; and

(c) disaggregate items based on dissimilar characteristics:

(i) in the primary financial statements, as necessary to provide useful structured summaries (as described in paragraph 16); and

(ii) in the notes, as necessary to provide material information (as described in paragraph 17).

B18 An entity may apply the steps in paragraphs B17(a)–B17(c) in varying order to apply the principles of aggregation and disaggregation in paragraph 41.

Basis of aggregation and disaggregation

B19 Paragraphs B16–B18 explain that an entity uses its judgement to aggregate and disaggregate assets, liabilities, equity, income, expenses and cash flows from individual transactions and other events based on similar and dissimilar characteristics. Paragraphs B78 and B110 set out examples of characteristics an entity considers in making its judgements.

B20 The more similar the characteristics of assets, liabilities, equity, income, expenses and cash flows are, the more likely it is that aggregating them will fulfil the role of the primary financial statements (that is, to provide useful structured summaries as described in paragraph 16) or the notes (that is, to provide material information as described in paragraph 17). The more dissimilar the characteristics of assets, liabilities, equity, income, expenses and cash flows are, the more likely it is that disaggregating the items will fulfil the roles of the primary financial statements or the notes.

B21 The items aggregated and presented as line items in the primary financial statements shall have at least one similar characteristic other than meeting the definition of assets, liabilities, equity, income, expenses or cash flows. However, because the role of the primary financial statements is to provide useful structured summaries, the line items in the primary financial statements are also likely to aggregate items that have sufficiently dissimilar characteristics that information about the disaggregated items is material.

B22 Applying paragraph 41, an entity shall disaggregate items that have dissimilar characteristics when the resulting information is material. A single dissimilar characteristic could result in information about disaggregated items being material.

For example, an entity might present in the statement of financial position financial assets that comprise equity investments and debt investments separately from non-financial assets. The financial assets have dissimilar characteristics because they have different measurement bases—some are measured at fair value through profit or loss and others at amortised cost. The entity might therefore determine that to provide a useful structured summary it is necessary to present line items that disaggregate the financial assets based on those measurement bases. That disaggregation results in a line item comprising equity investments and debt investments measured at fair value through profit or loss and a line item
B23 comprising debt investments measured at amortised cost. Because equity investments are dissimilar to debt investments in that each exposes the entity to different risks, the entity would assess whether further disaggregation in the statement of financial position of financial assets measured at fair value through profit or loss into equity investments and debt investments is needed to provide a useful structured summary. If not, and if the resulting information were material, the entity would need to disclose in the notes the equity investments separately from the debt investments. In addition if, for example, the equity investments had other dissimilar characteristics, the entity would be required to disaggregate further those equity investments in the notes if the resulting information were material.

Description of items

[Refer:Supporting materials Figure 7—Determining informative labels and information for aggregated items]

B24 Paragraph 43 requires an entity to label and describe items presented or disclosed in a way that faithfully represents the characteristics of the item. Such items will often be aggregations of items arising from individual transactions or other events and could vary in whether they are aggregations of items for which information is material and items for which information is immaterial. Specifically, in either the primary financial statements or in the notes:

(a) an item for which information is material could be aggregated with other items for which information is also material—an entity might provide such an aggregation to summarise information but would also be required to disclose information about each item;

(b) an item for which information is material could be aggregated with items for which information is not material—an entity would be required to provide information about disaggregated items only if immaterial information obscured the material information; or

(c) an item for which information is not material could be aggregated with other items for which information is not material—an entity might provide such an aggregation to complete a list of items and would not be required to disclose information about disaggregated items, subject to paragraph B26(b).

B25 An entity shall label items presented or disclosed as 'other' only if it cannot find a more informative label. Examples of how an entity might find a more informative label are:

(a) if an item for which information is material is aggregated with items for which information is not material, finding a label that describes the item for which information is material; and

(b) if items for which information is not material are aggregated:

  (i) aggregating items that share similar characteristics and describing them in a way that faithfully represents the similar characteristics; or

  (ii) aggregating items with other items that do not share similar characteristics and describing them in a way that faithfully represents the dissimilar characteristics of the items.

B26 If an entity cannot find a more informative label than 'other':

(a) for any aggregation—the entity shall use a label that describes the aggregated item as precisely as possible, for example, 'other operating expenses' or 'other finance expenses'.

(b) for an aggregation comprising only items for which information is not material—the entity shall consider whether the aggregated amount is sufficiently large that users of financial statements might reasonably question whether it includes items for which information could be material. If so, information to resolve that question is material information. Accordingly, in such cases, the entity shall disclose further information about the amount—for example:

(i) an explanation that no items for which information would be material are included in the amount; or

(ii) an explanation that the amount comprises several items for which information would not be material, with an indication of the nature and amount of the largest item.

Offsetting

[Refer:paragraphs 44–45]

B27 Paragraph 44 prohibits an entity from offsetting assets and liabilities or income and expenses unless required or permitted by an IFRS Accounting Standard. For example, IFRS 15 Revenue from Contracts with Customers requires an entity to measure revenue from contracts with customers at the amount of consideration to which the entity expects to be entitled in exchange for transferring promised goods or services. The amount of revenue recognised reflects any trade discounts and volume rebates the entity allows. In contrast, an entity might undertake, in the course of its ordinary activities, other transactions that do not generate revenue but are incidental to the main revenue-generating activities. The entity would present in the primary financial statements or disclose in the notes the results of such transactions, when this presentation or disclosure reflects the substance of the transaction or other event, by netting any income with related expenses arising on the same transaction. For example:

(a) an entity presents in the primary financial statements or discloses in the notes gains and losses on the disposal of non-current assets by deducting from the amount of consideration on disposal the carrying amount of the asset and related selling expenses; and

(b) an entity may net expenditure related to a provision that is recognised in accordance with IAS 37 and reimbursed under a contractual arrangement with a third party (for example, a supplier's warranty agreement) against the related reimbursement. [Refer:IAS 37 paragraph 54]

B28 In addition, an entity presents on a net basis gains and losses arising from a group of similar transactions—for example, foreign exchange gains and losses or gains and losses arising on financial instruments held for trading that are included in the same category of the statement(s) of financial performance applying paragraphs 47–68. However, an entity shall disclose such gains and losses separately in the notes if doing so provides material information.

Statement of profit or loss

Categories in the statement of profit or loss

[Refer:

paragraphs 47–48

Basis for Conclusions paragraphs BC81–BC87]

B29 Paragraph 47 requires an entity to classify income and expenses included in the statement of profit or loss in one of five categories. The operating category comprises all income and expenses included in the statement of profit or loss that are not classified in the other categories (see paragraph 52). Income and expenses classified in the discontinued operations category applying paragraph 68 are not subject to the requirements for classifying items of income and expense in the categories listed in paragraphs 47(a)–(d). Income and expenses classified in the income taxes category applying paragraph 67 are not subject to the requirements for classifying items of income and expense in the categories listed in paragraphs 47(a)–(c).

Assessment of specified main business activities

[Refer:

paragraphs 49–51

Basis for Conclusions paragraphs BC94–BC102]

B30 Paragraph 49 requires an entity to assess whether it invests in assets or provides financing to customers as a main business activity. An entity may have more than one main business activity. For example, an entity that manufactures a product and also provides financing to customers may determine that both its manufacturing activity and customer-finance activity are main business activities. To classify income and expenses into the categories of operating, investing and financing as required by this Standard, an entity need only determine whether either of, or both, investing in assets and providing financing to customers are main business activities.

B31 Examples of entities that might invest in assets as a main business activity include:

(a) investment entities as defined by IFRS 10 Consolidated Financial Statements;

(b) investment property companies; and

(c) insurers.

B32 Examples of entities that might provide financing to customers as a main business activity include:

(a) banks and other lending institutions;

(b) entities that provide financing to customers to enable those customers to buy the entity's products; and

(c) lessors that provide financing to customers in finance leases.

B33 Whether investing in assets or providing financing to customers is a main business activity of the entity is a matter of fact and not merely an assertion. An entity shall use its judgement to assess whether investing in assets or providing financing to customers is a main business activity and that assessment shall be based on evidence.

B34 In general, investing in assets or providing financing to customers is likely to be a main business activity of an entity if the entity uses a particular type of subtotal as an important indicator of operating performance. The particular type of subtotal is a subtotal similar to gross profit (see paragraph B123) that includes income and expenses that would be classified in the investing or financing categories if investing in assets or providing financing to customers were not main business activities.

B35 Evidence that subtotals similar to gross profit described in paragraph B123 are important indicators of operating performance includes using such subtotals to:

(a) explain operating performance externally; or

(b) assess or monitor operating performance internally.

B36 Information about segments may provide evidence that investing in assets or providing financing to customers is a main business activity if an entity applies IFRS 8 Operating Segments. Specifically:

(a) if a reportable segment comprises a single business activity, this indicates that the performance of the reportable segment is an important indicator of the entity's operating performance and that the business activity of the reportable segment is a main business activity of the entity; and

(b) if an operating segment comprises a single business activity, this indicates that the business activity might be a main business activity of the entity if the performance of the operating segment is an important indicator of the entity's operating performance as described in paragraph B34.

B37 An entity shall assess whether investing in assets or providing financing to customers is a main business activity for the reporting entity as a whole. Accordingly, the assessment of whether investing in assets or providing financing to customers is a main business activity by a reporting entity that is a consolidated group and a reporting entity that is one of the subsidiaries in the consolidated group could have different outcomes.

B38 An entity shall assess whether it invests as a main business activity in associates, joint ventures and unconsolidated subsidiaries not accounted for using the equity method (see paragraphs B43(b)–(c) and B44(b)–(c)) by individual asset or using groups of assets with shared characteristics. If an entity prepares separate financial statements as specified in IAS 27 Separate Financial Statements and performs the assessment for groups of assets, the entity shall use groups of assets that are consistent with the categories used to determine their measurement basis applying paragraph 10 of IAS 27. An entity need not assess whether it invests as a main business activity in associates, joint ventures and non-consolidated subsidiaries accounted for using the equity method (see paragraphs B43(a) and B44(a)) because it is required to classify the income and expenses from those investments in the investing category (see paragraph 55(a)).

B39 An entity need not assess whether it invests as a main business activity in cash and cash equivalents (see paragraph 53(b)). An entity is required to classify income and expenses from cash and cash equivalents in the investing category unless paragraphs 56(a) or 56(b) apply.

B40 An entity shall assess whether it invests as a main business activity in other assets that generate a return individually and largely independently of the entity's other resources (see paragraph 53(c)) by assessing an individual asset or groups of assets with shared characteristics. When performing the assessment for groups of financial assets an entity shall use groups of financial assets that are consistent with the classes of financial assets identified by the entity in applying paragraph 6 of IFRS 7.

B41 An entity shall assess whether investing in assets or providing financing to customers is a main business activity based on the facts at the time, so a change in the outcome of the assessment does not change the outcome of the previous assessments. Accordingly, an entity classifies and presents income and expenses applying the change in the outcome of the assessment prospectively from the date of the change and does not reclassify amounts presented before the date of the change. Unless it is impracticable to do so, paragraph 51(c)(ii) requires an entity to disclose the amount and classification of items of income and expense before and after the date of the change in the outcome of the assessment in the current period and the amount and classification in the prior period for items for which the classification has changed because of the change in the outcome of the assessment.

Operating

[Refer:

paragraph 52

Basis for Conclusions paragraphs BC88–BC93 and BC407–BC413]

B42 The requirements in paragraphs 47–66 result in an entity classifying income and expenses from its main business activities in the operating category of the statement of profit or loss, except for any such income and expenses from investments accounted for using the equity method. Furthermore, the operating category is not limited to income and expenses from an entity's main business activities. It includes all income and expenses that are not classified by an entity in the other categories applying paragraphs 53–68, including such income or expenses that are volatile or non-recurring.

Investing

[Refer:

paragraphs 53–58

Basis for Conclusions paragraphs BC103–BC147]

Investments in associates, joint ventures and unconsolidated subsidiaries

B43 Paragraphs 53 and 55 set out requirements for the classification of income and expenses from investments in associates and joint ventures. These investments comprise:

(a) investments in associates and joint ventures accounted for using the equity method in accordance with paragraph 16 of IAS 28 Investments in Associates and Joint Ventures and paragraph 10(c) of IAS 27;

(b) investments in associates and joint ventures (or a portion thereof) that an entity elects to measure at fair value through profit or loss in accordance with IFRS 9 applying paragraphs 18–19 of IAS 28 and paragraph 11 of IAS 27; and

(c) investments in associates and joint ventures in separate financial statements that are accounted for at cost applying paragraph 10(a) of IAS 27 or in accordance with IFRS 9 applying paragraph 10(b) of IAS 27.

B44 Paragraphs 53 and 55 also set out requirements for the classification of income and expenses from unconsolidated subsidiaries. Investments in unconsolidated subsidiaries comprise:

(a) investments in subsidiaries in separate financial statements accounted for using the equity method in accordance with paragraph 10(c) of IAS 27;

(b) investments in subsidiaries held by an investment entity that are measured at fair value through profit or loss in accordance with paragraph 31 of IFRS 10 and paragraph 11A of IAS 27; and

(c) investments in subsidiaries in separate financial statements that are accounted for at cost applying paragraph 10(a) of IAS 27 or in accordance with IFRS 9 applying paragraph 10(b) of IAS 27.

Assets that generate a return individually and largely independently of the entity's other resources

B45 Paragraph 53(c) requires an entity to identify assets that generate a return individually and largely independently of the entity's other resources. The return could be positive or negative.

B46 Assets that generate a return individually and largely independently of the entity's other resources in paragraph 53(c) typically include:

(a) debt or equity investments; and

(b) investment properties, and receivables for rent generated by those properties.

B47 Income and expenses specified in paragraph 54 from such assets typically include:

(a) interest;

(b) dividends;

(c) rental income;

(d) depreciation;

(e) impairment losses and reversals of impairment losses;

(f) fair value gains and losses; and

(g) income and expenses from the derecognition of the asset, or its classification and remeasurement as held for sale (see paragraphs B60–B64).

Assets that do not generate a return individually and largely independently of the entity's other resources

B48 Assets that an entity uses in combination to produce or supply goods or services do not generate a return individually and largely independently of the entity's other resources. Such assets typically include:

(a) property, plant and equipment;

(b) assets that arise from the production or supply of goods and services for which the income and expenses are classified in the operating category (for example, receivables for such goods and services); and

(c) if the entity provides financing to customers as a main business activity, any loans to a customer.

B49 Income and expenses from the assets described in paragraph B48 are classified in the operating category—for example:

(a) revenue for goods or services produced or supplied by the entity using a combination of assets;

(b) interest income;

(c) depreciation and amortisation;

(d) impairment losses and reversals of impairment losses;

(e) income and expenses from the derecognition of the asset, or its classification and remeasurement as held for sale (see paragraphs B60–B64); and

(f) income and expenses arising on a business combination that includes assets that will give rise to income and expenses that will be classified in the operating category, such as a gain on a bargain purchase and remeasurements of contingent consideration.

Financing

[Refer:

paragraphs 59–66

Basis for Conclusions paragraphs BC148–BC199]

Liabilities arising from transactions that involve only the raising of finance

B50 Paragraph 59(a) requires an entity to identify liabilities that arise from transactions that involve only the raising of finance. In such transactions, an entity:

(a) receives finance in the form of cash, or an extinguishment of a financial liability, or receipt of the entity's own equity instruments; and

(b) at a later date, will return in exchange cash or its own equity instruments.

B51 Liabilities arising from transactions that involve only the raising of finance include:

(a) a debt instrument that will be settled in cash, such as debentures, loans, notes, bonds and mortgages—an entity receives cash and will return cash in exchange;

(b) a liability under a supplier finance arrangement when the payable for goods or services is derecognised—an entity is discharged of the financial liability for the goods or services and will return cash in exchange;

(c) a bond that will be settled through delivery of an entity's shares—an entity receives cash and will return its own equity instruments in exchange; and

(d) an obligation for an entity to purchase its own equity instruments—an entity receives its own equity instruments and will return cash in exchange.

B52 Examples of income and expenses from such liabilities that paragraph 60 requires an entity to classify in the financing category include:

(a) interest expenses (for example, on debt instruments issued);

(b) fair value gains and losses (for example, on a liability designated at fair value through profit or loss);

(c) dividends on issued shares classified as liabilities; and

(d) income and expenses from the derecognition of the liability (see paragraph B61).

Liabilities arising from transactions that do not involve only the raising of finance

B53 Paragraph 59(b) requires an entity to identify liabilities that arise from transactions that do not involve only the raising of finance. Such liabilities include:

(a) payables for goods or services that will be settled in cash—an entity receives goods or services, not finance in the form described in paragraph B50(a);

(b) contract liabilities—an entity will return goods and services, not cash or its own equity instruments as described in paragraph B50(b); [Refer:IFRS 15 Appendix A (definition of a contract liabilitycontract liability)]

(c) lease liabilities—an entity receives a right-of-use asset, not finance in the form described in paragraph B50(a); [Refer:IFRS 16 Appendix A (definition of a leaselease)]

(d) defined benefit pension liabilities—an entity receives employee services, not finance in the form described in paragraph B50(a); [Refer:IAS 19 paragraph 8 (definition of defined benefit plansdefined benefit plans)]

(e) decommissioning or asset restoration provisions—an entity receives an asset that is not finance in the form described in paragraph B50(a); and

(f) a litigation provision—an entity does not receive finance as described in paragraph B50(a).

B54 Examples of income and expenses from such liabilities that paragraph 61 requires an entity to classify in the financing category include:

(a) interest expenses on payables arising from the purchase of goods or services, applying IFRS 9;

(b) interest expenses on a contract liability with a significant financing component as specified by IFRS 15;

(c) interest expenses on a lease liability, applying IFRS 16;

(d) net interest expense (income) on a net defined benefit liability (asset), applying IAS 19; and

(e) the increase in the discounted amount of a provision arising from the passage of time and the effect of any change in the discount rate on provisions, applying IAS 37.

Examples of income and expenses that arise from transactions that do not involve only the raising of finance but that are not in the scope of paragraph 61, and accordingly are classified in the operating category, include:

B55 (a) expenses recognised for consumption of the purchased goods or services described in paragraph B54(a);

(b) current and past service cost arising from a defined benefit plan, applying IAS 19; and

(c) remeasurements of the fair value of a liability for contingent consideration in a business combination recognised applying IFRS 3 Business Combinations.

Classification of income and expenses from hybrid contracts containing a host that is a liability

[Refer:Supporting materials Figure 4—Classification of income and expenses from hybrid contracts with host liabilities]

B56 How an entity classifies income and expenses from a hybrid contract with a host that is a liability depends on whether the embedded derivative is separated from the host contract. If the embedded derivative:

(a) is separated from the host liability:

(i) for the separated host liability—an entity applies the requirements for income and expenses from liabilities, as specified in paragraphs 52, 59–61, 64(b) and 65–66; and

(ii) for the separated embedded derivative—an entity applies the requirements for income and expenses from derivatives, as specified in paragraphs B70–B76;

(b) is not separated from the host liability and if the hybrid contract arises from a transaction that involves only the raising of finance—an entity applies the requirements for liabilities that arise from such transactions, as specified in paragraphs 52, 60 and 65–66;

(c) is not separated from the host liability and if the hybrid contract does not arise from a transaction that involves only the raising of finance:

(i) if the host liability is a financial liability within the scope of IFRS 9 that is measured at amortised cost—an entity classifies in the financing category income and expenses specified in paragraph 60 from the contract after initial recognition (instead of the income and expenses specified in paragraph 61) (see paragraph B59);

(ii) if the hybrid contract is an insurance contract within the scope of IFRS 17—an entity applies the requirements in paragraphs 52 and 64(b); and

(iii) otherwise—an entity applies the requirements for income and expenses from liabilities that arise from such transactions, as specified in paragraphs 52 and 61.

B57 An entity shall apply paragraphs B56(b) and B56(c) to all hybrid contracts containing a host liability for which the embedded derivative is not separated, regardless of whether the embedded derivative is not separated by the entity applying paragraph 4.3.3 of IFRS 9 or applying paragraph 4.3.5 of IFRS 9.

Liabilities arising from issued investment contracts with participation features

B58 Paragraph 64(a) sets out requirements for income and expenses from liabilities arising from issued investment contracts with participation features recognised applying IFRS 9. Examples of such investment contracts are:

(a) an investment contract with participation features issued by an insurer that does not meet the definition in IFRS 17 of an investment contract with discretionary participation features; and

(b) an investment contract with participation features issued by an investment entity.

Income and expenses classified in the operating category by an entity that provides financing to customers as a main business activity

B59 Paragraph 65 requires an entity that provides financing to customers as a main business activity to classify in the operating category income and expenses from some or all liabilities that arise from transactions that involve only the raising of finance. An entity shall also apply the requirements in that paragraph to income and expenses from a derivative relating to a transaction that involves only the raising of finance specified in paragraph B73(a), but not to the income and expenses from a hybrid contract specified in paragraph B56(c)(i).

Derecognition and changes in classification

[Refer:Basis for Conclusions paragraphs BC200–BC206]

Derecognition of an asset or liability, or classification and remeasurement of an asset as held for sale

B60 Paragraphs B47(g) and B49(e) refer to income and expenses from the derecognition of an asset, or its classification as held for sale. An entity shall classify income and expenses on the derecognition of an asset, or its classification as held for sale and any subsequent measurement while held for sale, in the same category as it classified the income and expenses from the asset immediately before its derecognition. For example, an entity shall classify gains and losses:

(a) on the disposal of property, plant and equipment—in the operating category;

(b) on the disposal of an investment property that an entity does not invest in as a main business activity—in the investing category; and

(c) from the remeasurement of an investment in an associate previously accounted for using the equity method on the step acquisition of a subsidiary—in the investing category.

B61 An entity shall classify income and expenses from the derecognition of a liability by applying the requirements in paragraphs 52 and 59–60. For example, the entity classifies income and expenses from the derecognition of a liability:

(a) in the financing category—if the liability arises from a transaction that involves only the raising of finance by an entity that does not provide financing to customers as a main business activity; and

(b) in the operating category—if as part of a supplier finance arrangement an entity derecognises a payable to a supplier and recognises a liability under that arrangement. [Refer:IAS 7 paragraphs 44F–44H]

Change in use of an asset

B62 A transaction or other event might change the category in the statement of profit or loss in which an entity classifies income and expenses from an asset, without the asset being derecognised. In such cases, an entity shall classify the income and expenses from the transaction or other event in the category in which it classified income and expenses from the asset immediately before the transaction or event. For example, an entity shall classify in the operating category any income or expenses recognised in the statement of profit or loss on the transfer of property from the scope of IAS 16 to investment property in the scope of IAS 40.

Groups of assets and liabilities

B63 Paragraphs B60–B62 set out requirements for income and expenses from an asset or liability from its derecognition, classification and subsequent measurement while held for sale, or from its change in use. A transaction or other event might result in these outcomes for a group of assets (or a group of assets and liabilities) that generated income and expenses that an entity classified in different categories immediately before the transaction or other event. An entity shall classify income or expenses from such a transaction or other event:

(a) in the investing category if, other than any income tax assets, all the assets in the group generated income and expenses that the entity classified in the investing category immediately before the transaction or other event; and
(b) in the operating category otherwise.

For example, an entity classifies:

B64
(a) in the operating category—gains and losses on the disposal of a consolidated subsidiary, if the subsidiary included assets that generated income and expenses that the entity classified in the operating category immediately before the disposal. The gains and losses include the reclassification from equity to profit or loss of foreign exchange differences required by paragraph 48 of IAS 21.
(b) in the operating category—an impairment loss arising on the classification of a disposal group as held for sale by the entity applying IFRS 5, if the disposal group included assets that generated income and expenses that the entity classified in the operating category immediately before its classification as held for sale.
(c) in the investing category—gains and losses on disposal of a consolidated subsidiary, if the only assets of the subsidiary were investment property that the consolidated reporting entity did not invest in as a main business activity and related income tax assets. The gains and losses include the reclassification from equity to profit or loss of foreign exchange differences required by paragraph 48 of IAS 21.

Classification of foreign exchange differences and the gain or loss on the net monetary position

[Refer:Basis for Conclusions paragraphs BC207–BC222]

B65 To apply paragraph 47, an entity shall classify foreign exchange differences included in the statement of profit or loss applying IAS 21 in the same category as the income and expenses from the items that gave rise to the foreign exchange differences, unless doing so would involve undue cost or effort (see paragraph B68).

B66 For example, an entity classifies foreign exchange differences on:

(a) a receivable described in paragraph B48(b) denominated in a foreign currency, in the same category as the income and expenses from that asset—that is, in the operating category; and
(b) a debt instrument that is a liability described in paragraph B51(a) denominated in a foreign currency, in the same category as the income and expenses on that liability—that is, in the financing category (unless the entity provides financing to customers as a main business activity and classifies the income and expenses from the liability in the operating category applying paragraph 65).

B67 An entity might classify in more than one category income and expenses from a transaction that does not involve only the raising of finance. For example, the purchase of services in a transaction denominated in a foreign currency and negotiated on extended credit terms could give rise to an expense for the purchase of the services classified in the operating category (see paragraph B55(a)) and interest expenses classified in the financing category (see paragraph B54(a)). In such cases, subject to paragraph B68, an entity shall use its judgement to determine whether the foreign exchange difference relates to the amount classified in the financing category—and classify it in that category—or whether it relates to the amount classified in another category—and classify it in that category. An entity shall not allocate between categories a foreign exchange difference arising on a liability from a transaction that does not involve only the raising of finance. In making its judgements about how to classify the foreign exchange differences, an entity need not classify in the same category the foreign exchange differences on all such liabilities. However, an entity shall classify in the same category foreign exchange differences on similar liabilities.

B68 If applying the requirements in paragraphs B65 and B67 would involve undue cost or effort, an entity shall instead classify the affected foreign exchange differences in the operating category. An entity shall assess whether classifying foreign exchange differences as described in paragraphs B65 and B67 involves undue cost or effort for each item that gives rise to foreign exchange differences. The assessment is specific to the facts and circumstances related to each item. If the same facts and circumstances relate to a number of items, an entity could apply the same assessment to each of the items.

B69 Applying paragraph 28 of IAS 29 Financial Reporting in Hyperinflationary Economies, an entity might present the gain or loss on the net monetary position with other income and expense items associated with the net monetary position, such as interest income and expenses and foreign exchange differences. If the entity does not present the gain or loss on the net monetary position with the associated income and expenses, it shall classify the gain or loss in the operating category.

Classification of gains and losses on derivatives and designated hedging instruments

[Refer:

Supporting materials Figure 5—Classification of gains and losses on derivatives

Basis for Conclusions paragraphs BC223–BC235]

B70 Paragraph 47 requires an entity to classify income and expenses in categories in the statement of profit or loss. To apply paragraph 47, an entity shall classify gains and losses included in the statement of profit or loss on a financial instrument designated as a hedging instrument applying IFRS 9 in the same category as the income and expenses affected by the risks the financial instrument is used to manage. However, if doing so would require the grossing up of gains and losses, an entity shall classify all such gains and losses in the operating category (see paragraphs B74–B75).

B71 An entity shall classify gains and losses on an undesignated component of a designated hedging instrument in the same category as gains and losses on the designated component. An entity shall classify ineffective portions of a gain or loss in the same category as the effective portions.

B72 An entity shall also apply the requirements in paragraph B70 to gains and losses on a derivative that is not designated as a hedging instrument applying IFRS 9, but is used to manage identified risks. However, if doing so would require the grossing up of gains or losses (see paragraphs B74–B75) or involve undue cost or effort, the entity shall instead classify all gains and losses on the derivative in the operating category.

B73 An entity shall classify gains and losses on a derivative that is not used to manage identified risks:

(a) in the financing category, if the derivative relates to a transaction that involves only the raising of finance (for example, a purchased call option that allows the issuing entity to exchange a fixed amount of a foreign currency for a fixed number of the entity's equity instruments), unless the entity that provides financing to customers as a main business activity classifies the gains and losses in the operating category applying paragraph B59; and

(b) in the operating category, if the conditions in (a) are not met.

B74 Paragraphs B70 and B72 prohibit the grossing up of gains and losses on financial instruments designated as hedging instruments and derivatives not designated as hedging instruments. The grossing up of gains and losses might arise from situations in which:

(a) an entity uses such financial instruments to manage the risks of a group of items with offsetting risk positions (see paragraph 6.6.1 of IFRS 9 for the criteria for a group of items to be an eligible hedged item); and

(b) the risks managed affect line items in more than one category of the statement of profit or loss.

B75 For example, an entity may use a derivative to manage both the net foreign currency risk on revenue (classified in the operating category) and interest expenses (classified in the financing category). In such cases, the foreign exchange differences on the revenue are offset by the foreign exchange differences on the interest expenses and the gains or losses on the derivative. However, the entity classifies the foreign exchange differences on the revenue in a different category from the foreign exchange differences on the interest expenses. To present the gain or loss on the derivative in each category, an entity would need to present in each category a larger gain or loss than occurred on the derivative. Applying the requirements in paragraphs B70–B73, an entity shall not gross up the gains or losses in this manner and instead shall classify any gain or loss on the derivative in the operating category.

B76 The requirements in paragraphs B70–B75 specify only how to classify income and expenses into categories of the statement of profit or loss. They do not prescribe the line item (or line items) in which to include such income and expenses, nor do they override the requirements in other IFRS Accounting Standards.

Items to be presented in the statement of profit or loss or disclosed in the notes

[Refer:

paragraphs 75–85

Basis for Conclusions paragraphs BC236–BC276]

B77 An entity may be required to present a line item listed in paragraph 75, or specified in another IFRS Accounting Standard, in more than one of the categories listed in paragraph 47. For example, an entity that does not invest in assets or provide financing to customers as a main business activity may be required to present the line item specified in paragraph 75(b)(ii) of impairment losses determined in accordance with Section 5.5 of IFRS 9 in:

(a) the operating category—if it relates to receivables for goods and services as described in paragraph B48(b); and

(b) the investing category—if it relates to financial assets that generate a return individually and largely independently of the entity's other resources as described in paragraph B46.

B78 Paragraphs 24 and 41(c) require an entity to present additional line items in the statement of profit or loss if doing so is necessary to provide a useful structured summary of the entity's income and expenses. An entity uses its judgement to make this determination (including whether it is necessary to disaggregate the line items listed in paragraph 75). Paragraphs 20 and 41(d) require an entity to disaggregate items to disclose material information in the notes. An entity also uses its judgement to make this determination. Paragraph 41 requires the entity to base its judgements on an assessment of whether the items have characteristics that are shared (similar characteristics) or characteristics that are not shared (dissimilar characteristics). Such characteristics include:

(a) nature (see paragraph 80);

(b) function (role) within the entity's business activities (see paragraph 81);

(c) persistence (including the frequency of the item of income or expense or whether it is recurring or non-recurring);

(d) measurement basis;

(e) measurement uncertainty or outcome uncertainty (or other risks associated with an item);

(f) size;

(g) geographical location or regulatory environment;

(h) tax effects (for example, if different tax rates apply to items of income or expense); and

(i) whether the income or expenses arise on initial recognition of a transaction or event or from a subsequent change in estimate relating to the transaction or event.

B79 Income and expenses that might have sufficiently dissimilar characteristics that presentation in the statement of profit or loss is necessary to provide a useful structured summary or disclosure in the notes is necessary to provide material information include:

(a)	write-downs of inventories, as well as reversals of such write-downs;			
	Inventory write-down, operating Disclosure	Monetary Duration	IAS 2.36 e Disclosure Effective 2027-01-01 IFRS 19.164 d Disclosure	800200, 826380

Losses on litigation settlements, operating Disclosure	Monetary Duration, Debit	800200

(g) reversals of provisions; and

Other reversals of provisions, operating Disclosure	Monetary Duration, Credit	800200

(h) non-recurring income and expenses not included in (a)–(g).

Presentation and disclosure of expenses classified in the operating category

[Refer:

paragraphs 78–85

Basis for Conclusions paragraphs BC246–BC276]

Use of characteristics of nature and function

B80 In determining how to use the characteristics of nature and function to provide the most useful structured summary as required by paragraph 78, an entity shall consider:

(a) what line items provide the most useful information about the main components or drivers of the entity's profitability. For example, for a retail entity a main component or driver of profitability might be cost of sales. Presenting a cost of sales line item might provide relevant information about whether the revenue generated from the sale of goods covers what, for retailers, are mainly direct costs, and by what margin. However, cost of sales is unlikely to provide relevant information about the important components or drivers of profitability if the link between revenue and costs is less direct. For example, for some service entities, information about operating expenses classified by nature, such as employee benefits, might be more relevant to users of financial statements because these expenses are the main drivers of profitability.

(b) what line items most closely represent the way the business is managed and how management reports internally. For example, a manufacturing entity managed on the basis of major functions might classify expenses by function for internal reporting purposes. In contrast, an entity that has a single predominant function, such as providing financing to customers, might determine that line items comprising expenses classified by nature provide the most useful information for internal reporting purposes.

(c) what standard industry practice entails. If expenses are classified in the same way by entities in an industry, users of financial statements can more easily compare expenses between entities in the same industry.

(d) whether the allocation of particular expenses to functions would be arbitrary to the extent that the line items presented would not provide a faithful representation of the functions. In such cases, an entity shall classify these expenses by nature.

B81 In some cases, an entity considering the factors set out in paragraph B80 could determine that classifying and presenting some expenses by nature and other expenses by function provides the most useful structured summary. For example:

(a) the factors in paragraphs B80(a)–(b) might indicate that classifying and presenting expenses by function provides the most useful structured summary, except for particular expenses for which the allocation to functions would be arbitrary (see paragraph B80(d)); and

(b) an entity having two different types of main business activities might classify and present some expenses by function and other expenses by nature to provide information about the main drivers of its profitability.

B82 If an entity classifies and presents some expenses by nature and other expenses by function in the statement of profit or loss, it shall label the resulting line items in a way that clearly identifies what expenses are included in each line item. For example, if an entity includes some employee benefits in a function line item and other employee benefits in a nature line item, the label for the nature line item would clearly identify that it does not include all employee benefits (for example, 'employee benefits other than those included in cost of sales').

B83 Applying paragraph 30, an entity shall classify and present expenses consistently from one reporting period to the next unless paragraphs 30(a) or 30(b) apply. For example, if an entity presents impairment of goodwill as a nature line item in one reporting period, it shall also present any similar impairment of goodwill as a nature line item in subsequent reporting periods unless paragraphs 30(a) or 30(b) apply. If there is no similar impairment of goodwill in a subsequent period, the fact that there is an expense of nil in that subsequent period does not constitute a change in classification and presentation.

B84 An entity will either present expenses by nature, or applying paragraph 83, disclose some expenses by nature. The amounts presented or disclosed need not be the amounts recognised as an expense in the period. They could include amounts that have been recognised as part of the carrying amount of an asset. If an entity:

(a) presents amounts that are not the amounts recognised as an expense in the period, it will also present an additional line item for the change in the carrying amount of the affected assets. For example, applying paragraph 39 of IAS 2, an entity might present a line item for changes in inventories of finished goods and work in progress.

(b) discloses, applying paragraph 83(b), amounts that are not the amounts recognised as an expense in the period, the entity shall give a qualitative explanation of that fact, identifying the assets involved.

Aggregation of operating expenses

B85 To apply paragraph 78, an entity shall consider what level of aggregation for operating expenses provides the most useful structured summary. For example, an entity might have various administrative activities (such as human resources, information technology, legal and accounting). To provide a useful structured summary, the entity might aggregate operating expenses relating to those activities based on their shared characteristic—all are expenses for resources consumed in administrative activities. Accordingly the entity might present them in a line item labelled as 'administrative expenses'. The entity might also have expenses for resources consumed in selling activities. These expenses have a dissimilar characteristic from the administrative expenses—selling expenses arise from resources consumed in selling activities and administrative expenses arise from resources consumed in administrative activities. These characteristics are sufficiently dissimilar that disaggregation—presentation in separate line items for selling expenses and administrative expenses—might be necessary to provide a useful structured summary of the entity's expenses.

Statement presenting comprehensive income

Other comprehensive income

[Refer:

paragraphs 88–95

Basis for Conclusions paragraphs BCZ277–BCZ284]

B86 Some IFRS Accounting Standards specify circumstances when an entity includes particular items outside the statement of profit or loss in the current reporting period. IAS 8 specifies two such circumstances: the correction of errors and the effect of changes in accounting policies. Other IFRS Accounting Standards require or permit an entity to exclude from profit or loss components of other comprehensive income that meet the Conceptual Framework for Financial Reporting's definition of income or expenses (see paragraph B87).

B87 Appendix A defines 'other comprehensive income'. The components of other comprehensive income include:

(a) changes in revaluation surplus (see IAS 16 and IAS 38);

(b) remeasurements of defined benefit plansdefined benefit plans (see IAS 19);

(c) gains and losses arising from translating the financial statements of a foreign operation (see IAS 21);

(d) gains and losses from investments in equity instruments designated at fair value through other comprehensive income in accordance with paragraph 5.7.5 of IFRS 9;

(e) gains and losses on financial assets measured at fair value through other comprehensive income in accordance with paragraph 4.1.2A of IFRS 9;

(f) the effective portion of gains and losses on hedging instruments in a cash flow hedge and the gains and losses on hedging instruments that hedge investments in equity instruments designated at fair value through other comprehensive income in accordance with paragraph 5.7.5 of IFRS 9 (see Chapter 6 of IFRS 9);

(g) for particular liabilities designated as at fair value through profit or loss, the amount of the change in fair value that is attributable to changes in the liability's credit risk (see paragraph 5.7.7 of IFRS 9);

(h) changes in the value of the time value of options when separating the intrinsic value and time value of an option contract and designating as the hedging instrument only the changes in the intrinsic value (see Chapter 6 of IFRS 9); [Refer:IFRS 9 paragraph 6.2.4(a)]

(i) changes in the value of the forward elements of forward contracts when separating the forward element and spot element of a forward contract and designating as the hedging instrument only the changes in the spot element, and changes in the value of the foreign currency basis spread of a financial instrument when excluding it from the designation of that financial instrument as the hedging instrument (see Chapter 6 of IFRS 9); [Refer:IFRS 9 paragraph 6.2.4(b)]

(j) insurance finance income and expenses from contracts issued within the scope of IFRS 17 excluded from profit or loss when total insurance finance income or expenses is disaggregated to include in profit or loss an amount determined by a systematic allocation applying paragraph 88(b) of IFRS 17, or by an amount that eliminates accounting mismatches with the finance income or expenses arising on the underlying items, applying paragraph 89(b) of IFRS 17; and

(k) finance income and expenses from reinsurance contracts held excluded from profit or loss when total reinsurance finance income or expenses is disaggregated to include in profit or loss an amount determined by a systematic allocation, applying paragraph 88(b) of IFRS 17.

B88 Reclassification adjustments arise, for example, on disposal of a foreign operation (see IAS 21) and when some hedged forecast cash flows affect profit or loss (see paragraph 6.5.11(d) of IFRS 9 in relation to cash flow hedges).

B89 Paragraph 90 requires an entity to present in the statement presenting comprehensive income or disclose in the notes reclassification adjustments relating to components of other comprehensive income. Reclassification adjustments do not arise on changes in revaluation surplus recognised in accordance with IAS 16 or IAS 38 or on remeasurements of defined benefit plans recognised in accordance with IAS 19. An entity recognises these components in other comprehensive income and does not reclassify them to profit or loss in subsequent reporting periods. An entity may transfer changes in revaluation surplus to retained earnings in subsequent periods as the asset is used or when it is derecognised (see IAS 16 and IAS 38). In accordance with IFRS 9, reclassification adjustments do not arise if a cash flow hedge or the accounting for the time value of an option (or the forward element of a forward contract or the foreign currency basis spread of a financial instrument) results in amounts that an entity removes from the cash flow hedge reserve or a separate component of equity, respectively, and includes directly in the initial cost or other carrying amount of an asset or a liability. An entity transfers these amounts directly to assets or liabilities.

Statement of financial position

Classification of assets and liabilities as current or non-current

[Refer:paragraphs 96–98]

B90 In applying paragraph 96, when an entity supplies goods or services within a clearly identifiable operating cycle, separate classification of current and non-current assets and liabilities in the statement of financial position provides useful information by distinguishing the net assets that are continuously circulating as working capital from those used in the entity's long-term operations. Such separate classification also highlights assets that an entity expects to realise within the current operating cycle and liabilities that are due for settlement within the same period.

B91 For some entities, such as financial institutions, a presentation of assets and liabilities in increasing or decreasing order of liquidity provides a more useful structured summary than a current/non-current presentation because the entity does not supply goods or services within a clearly identifiable operating cycle.

B92 In applying paragraph 96, an entity is permitted to present some of its assets and liabilities using a current/non-current classification and others in order of liquidity when doing so provides a more useful structured summary. The need for a mixed basis of presentation might arise when an entity has diverse operations.

B93 Information about expected dates of realisation of assets and liabilities is useful in assessing the liquidity and solvency of an entity. IFRS 7 requires disclosure of the maturity analysis of financial assets and financial liabilities. Financial assets include trade and other receivables, and financial liabilities include trade and other payables. Information on the expected date of recovery of non-monetary assets, such as inventories, and the expected date of settlement for liabilities, such as provisions, is also useful, whether assets and liabilities are classified as current or as non-current. For example, an entity discloses in the notes the amount of inventories that it expects to recover more than 12 months after the reporting period.

Current assets

[Refer:

paragraphs 99–100

Basis for Conclusions paragraph BCZ288]

B94 Paragraph 100 requires an entity to classify as non-current all assets not classified as current. This Standard uses the term 'non-current' to include tangible, intangible and financial assets of a long-term nature. It does not prohibit the use of alternative descriptions as long as the meaning is clear.

B95 The operating cycle of an entity is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. When an entity's normal operating cycle is not clearly identifiable, it is assumed to be 12 months. Current assets include assets (such as inventories and trade receivables) that are sold, consumed or realised as part of the normal operating cycle even when they are not expected to be realised within 12 months after the reporting period. Current assets also include assets held primarily for the purpose of trading (examples include some financial assets that meet the definition of held for trading in IFRS 9) and the current portion of non-current financial assets.

Current inventories Example	Monetary Instant, Debit	IAS 2.36 b Disclosure Effective 2027-01-01 IFRS 18.103 i Disclosure Effective 2027-01-01 IFRS 19.164 b Disclosure	210000, 800100, 810000
Current trade receivables Example	Monetary Instant, Debit	Effective 2027-01-01 IFRS 18.B111 b Example	800100, 810000

Current liabilities

[Refer:

paragraphs 101–102

Basis for Conclusions paragraphs BCZ285–BCZ312]

Normal operating cycle (see paragraph 101(a))

B96 Some current liabilities, such as trade payables and some accruals for employee and other operating costs, are part of the working capital used in an entity's normal operating cycle. An entity classifies such items as current liabilities even if they are due to be settled more than 12 months after the reporting period. The same normal operating cycle applies to the classification of the entity's assets and liabilities. When the entity's normal operating cycle is not clearly identifiable, it is assumed to be 12 months.

Current trade payables	Common practice	Monetary Credit	Instant,	Effective 2027-01-01 IFRS 18.B111 practice	Common	800100, 810000

Held primarily for the purpose of trading (see paragraph 101(b)) or due to be settled within 12 months (see paragraph 101(c))

B97 Other current liabilities are not settled as part of the normal operating cycle, but are due for settlement within 12 months after the reporting period or held primarily for the purpose of trading. Examples are some financial liabilities that meet the definition of held for trading in IFRS 9, bank overdrafts, and the current portion of non-current financial liabilities, dividends payable, income taxes and other non-trade payables. Financial liabilities that provide financing on a long-term basis (that is, are not part of the working capital used in the entity's normal operating cycle) and are not due for settlement within 12 months after the reporting period are non-current liabilities, subject to paragraphs B99–B103.

B98 An entity classifies its financial liabilities as current when they are due to be settled within 12 months after the reporting period, even if:

(a) the original term was for a period longer than 12 months; and

(b) an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorised for issue. [Refer:IAS 10 paragraphs 3–7]

Right to defer settlement for at least 12 months (paragraph 101(d))

B99 An entity's right to defer settlement of a liability for at least 12 months after the reporting period must have substance and, as illustrated in paragraphs B100–B103, must exist at the end of the reporting period.

B100 An entity's right to defer settlement of a liability arising from a loan arrangement for at least 12 months after the reporting period may be subject to the entity complying with conditions specified in that loan arrangement (hereafter referred to as 'covenants'). For the purposes of applying paragraph 101(d), such covenants:

(a) affect whether that right exists at the end of the reporting period—as illustrated in paragraphs B102–B103—if an entity is required to comply with the covenant on or before the end of the reporting period. Such a covenant affects whether the right exists at the end of the reporting period even if compliance with the covenant is assessed only after the reporting period (for example, a covenant based on the entity's financial position at the end of the reporting period but assessed for compliance only after the reporting period).

(b) do not affect whether that right exists at the end of the reporting period if an entity is required to comply with the covenant only after the reporting period (for example, a covenant based on the entity's financial position six months after the end of the reporting period).

B101 If an entity has the right, at the end of the reporting period, to roll over an obligation for at least 12 months after the reporting period under an existing loan facility, it classifies the obligation as non-current, even if it would otherwise be due within a shorter period. If the entity has no such right, the entity does not consider the potential to refinance the obligation and classifies the obligation as current.

B102 When an entity breaches a covenant of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the authorisation of the financial statements for issue, not to demand payment as a consequence of the breach. The entity classifies the liability as current because, at the end of the reporting period, it does not have the right to defer its settlement for at least 12 months after that date.

B103 However, an entity classifies the liability as non-current if the lender agreed by the end of the reporting period to provide a period of grace ending at least 12 months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment.

B104 Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least 12 months after the reporting period. If a liability meets the criteria in paragraphs 101–102 for classification as non-current, it is classified as non-current even if management intends or expects the entity to settle the liability within 12 months after the reporting period, or even if the entity settles the liability between the end of the reporting period and the date the financial statements are authorised for issue. However, in either of those circumstances, the entity may need to disclose information about the timing of settlement to enable users of financial statements to understand the impact of the liability on the entity's financial position (see paragraphs 6C(c) of IAS 8 and B105(d)).

B105 If the following events occur between the end of the reporting period and the date the financial statements are authorised for issue, those events are disclosed as non-adjusting events in accordance with IAS 10 Events after the Reporting Period:

(a) refinancing on a long-term basis of a liability classified as current (see paragraph B98);

(b) rectification of a breach of a long-term loan arrangement classified as current (see paragraph B102);

(c) the granting by the lender of a period of grace to rectify a breach of a long-term loan arrangement classified as current (see paragraph B103); and

(d) settlement of a liability classified as non-current (see paragraph B104).

B106 In applying paragraphs 101–102 and B96–B103 an entity might classify liabilities arising from loan arrangements as non-current when the entity's right to defer settlement of those liabilities is subject to the entity complying with covenants within 12 months after the reporting period (see paragraph B100(b)). In such situations, the entity shall disclose information in the notes that enables users of financial statements to understand the risk that the liabilities could become repayable within 12 months after the reporting period, including:

(a) information about the covenants (including the nature of the covenants and when the entity is required to comply with them) and the carrying amount of related liabilities.

Carrying amount of non-current liabilities with covenants Disclosure	Monetary Credit	Instant,	Effective 2027-01-01 IFRS 19.137 a Disclosure	810000, 822390

(b) facts and circumstances, if any, that indicate the entity may have difficulty complying with the covenants—for example, the entity having acted during or after the reporting period to avoid or mitigate a potential breach. Such facts and circumstances could also include the fact that the entity would not have complied with the covenants if they were to be assessed for compliance based on the entity's circumstances at the end of the reporting period.

Disclosure of information about covenants related to non-current liabilities including facts and circumstances indicating entity may have difficulty complying with covenants [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.137 b Disclosure	810000, 822390

Settlement (paragraphs 101(a), 101(c) and 101(d))

B107 For the purpose of classifying a liability as current or non-current, settlement refers to a transfer to the counterparty that results in the extinguishment of the liability. The transfer could be of:

(a) cash or other economic resources—for example, goods or services; or

(b) the entity's own equity instruments, unless paragraph B108 applies.

B108 Terms of a liability that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instruments do not affect its classification as current or non-current if, applying IAS 32, the entity classifies the option as an equity instrument, recognising it separately from the liability as an equity component of a compound financial instrument.

Items to be presented in the statement of financial position or disclosed in the notes

[Refer:

paragraphs 103–106

Basis for Conclusions paragraphs BC313–BC315]

B109 Paragraphs 24 and 41(c) require an entity to present additional line items in the statement of financial position if doing so is necessary to provide a useful structured summary of the entity's assets, liabilities and equity. An entity uses its judgement to make this determination (including whether it is necessary to disaggregate the line items listed in paragraph 103). Paragraph 41 requires the entity to base its judgements on an assessment of whether the items have characteristics that are shared (similar characteristics) or characteristics that are not shared (dissimilar characteristics). For additional line items for assets and liabilities, an entity bases its judgements on an assessment of the nature or function of the assets or liabilities. The characteristics listed in paragraphs B110(c)–(k) might assist an entity in identifying the nature or function of assets and liabilities.

B110 Paragraphs 20 and 41(d) require an entity to disaggregate items to disclose material information in the notes. An entity uses its judgement to do this based on an assessment of whether the items have characteristics that are shared (similar characteristics) or characteristics that are not shared (dissimilar characteristics). Such characteristics include:

(a) nature;

(b) function (role) in the entity's business activities;

(c) duration and timing of recovery or settlement (including whether an asset or liability is classified as current or non-current or whether its recovery or settlement forms part of the entity's operating cycle);
(d) liquidity;
(e) measurement basis;
(f) measurement uncertainty or outcome uncertainty (or other risks associated with an item);
(g) size;
(h) geographical location or regulatory environment;
(i) type, for example, the type of good, service or customer;
(j) tax effects—for example, if assets or liabilities have different tax bases; and
(k) restrictions on the use of an asset or on the transferability of a liability.

B111 Assets, liabilities and items of equity that might have sufficiently dissimilar characteristics that presentation in the statement of financial position is necessary to provide a useful structured summary or disclosure in the notes is necessary to provide material information include:

(a) property, plant and equipment disaggregated into classes in accordance with IAS 16;
(b) receivables disaggregated into amounts receivable from trade customers, amounts receivable from related parties, prepayments and other amounts;

Current receivables due from associates Common practice	Monetary Instant, Debit	800100

Notes

Structure

[Refer:

paragraphs 113–116

Basis for Conclusions paragraphs BCZ319–BC324]

B112 Paragraph 114 requires an entity to present notes in a systematic manner, so far as is practicable. Examples of systematic ordering or grouping of the notes include:

(a) giving prominence to the areas of its activities that an entity considers to be most important to an understanding of its financial performance and financial position, such as grouping together information about particular business activities;

(b) grouping together information about items measured similarly such as assets measured at fair value; or

(c) following the order of the line items in the statement(s) of financial performance and the statement of financial position, such as:

   (i) statement of compliance with IFRS Accounting Standards (see paragraph 6B of IAS 8);

   (ii) material accounting policy information (see paragraph 27A of IAS 8);

   (iii) supporting information for items presented in the statement of financial position, the statement(s) of financial performance, the statement of changes in equity and the statement of cash flows, in the order in which each statement is provided and each line item is presented; and

   (iv) other disclosures, including:

      (1) contingent liabilities (see IAS 37) and unrecognised contractual commitments; and

      (2) non-financial disclosures—for example an entity's financial risk management objectives and policies (see IFRS 7).

Management-defined performance measures

[Refer:

paragraphs 117–125

Basis for Conclusions paragraphs BC325–BC390]

Identification of management-defined performance measures

[Refer:

paragraphs 117–120

Basis for Conclusions paragraphs BC328–BC368]

B113 Paragraph 117 defines management-defined performance measures. An entity might have no management-defined performance measures, one management-defined performance measure or more than one. For example, an entity that publicly communicates its financial performance to users of financial statements using only totals and subtotals required to be presented or disclosed by IFRS Accounting Standards does not have a management-defined performance measure.

B114 To meet the definition of a management-defined performance measure, the measure must communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole. For example, if a subtotal of income and expenses that relates to a reportable segment disclosed in accordance with IFRS 8 does not provide information about an aspect of the financial performance of the entity as a whole, that subtotal cannot meet the definition of a management-defined performance measure.

B115 However, sometimes a subtotal of income and expenses that relates to a reportable segment could provide information about an aspect of the financial performance of the entity as a whole. For example, if a reportable segment contains a single main business activity of the entity and a subtotal of income and expenses relating to that segment is presented in the statement of profit or loss, that would indicate that the subtotal provides information about an aspect of the financial performance of the entity as a whole. In such cases, a subtotal of income and expenses related to that reportable segment would meet the definition of a management-defined performance measure if it met the other parts of the definition of a management-defined performance measure.

Subtotals of income and expenses

B116 A management-defined performance measure is a subtotal of income and expenses. Examples of measures that are not management-defined performance measures because they are not subtotals of income and expenses include:

(a) subtotals of only income or only expenses (for example, a stand-alone measure of adjusted revenue that is not part of a subtotal that also includes expenses);

(b) assets, liabilities, equity or combinations of these elements;

(c) financial ratios (for example, return on assets) (see paragraph B117);

(d) measures of liquidity or cash flows (for example, free cash flow); or

(e) non-financial performance measures.

B117 A financial ratio is not a management-defined performance measure because it is not a subtotal of income and expenses. However, a subtotal that is the numerator or denominator in a financial ratio is a management-defined performance measure if the subtotal would meet the definition of a management-defined performance measure if it were not part of a ratio. Accordingly, an entity shall apply the disclosure requirements in paragraphs 121–125 to such a numerator or denominator.

B118 A subtotal of income and expenses that meets the definition of a management-defined performance measure in paragraph 117 is a management-defined performance measure whether or not it is presented in the statement of profit or loss.

Public communications

B119 A subtotal meets the definition of a management-defined performance measure only if an entity uses it in public communications outside its financial statements. Public communications include management commentary, press releases and investor presentations. For the purpose of defining management-defined performance measures, public communications exclude oral communications, written transcripts of oral communications and social media posts.

B120 Management-defined performance measures relate to the same reporting period as the financial statements. Specifically, a subtotal:

(a) relating to interim financial statements but not to the annual financial statements can only be a management-defined performance measure in the interim financial statements; and

(b) relating to annual financial statements but not to interim financial statements can only be a management-defined performance measure in the annual financial statements.

B121 An entity shall consider only public communications related to the reporting period to identify management-defined performance measures for the reporting period, unless as part of its financial reporting process it routinely issues such public communications after the date of issue of its financial statements. If that is the case, an entity shall consider public communications related to the previous reporting period to identify management-defined performance measures for the current reporting period.

B122 However, a measure used in the public communications related to the previous reporting period is not required to be identified as a management-defined performance measure for the current reporting period if there is evidence that indicates it will not be included in the public communications to be issued relating to the current reporting period. If such a measure had been disclosed as a management-defined performance measure in the previous reporting period and is not identified as such for the current reporting period, that would be a change to, or a cessation of, a management-defined performance measure to which the disclosure requirements in paragraph 124 apply.

Subtotals similar to gross profit

B123 In accordance with paragraph 118(a), subtotals similar to gross profit are not management-defined performance measures. A subtotal is similar to gross profit when it depicts the difference between a type of revenue and directly related expenses incurred in generating that revenue. Examples include:

(a) net interest income;

Interest income (expense), operating Disclosure	Monetary Duration, Credit	IFRS 8.23 Disclosure IFRS 8.28 e Disclosure	330000, 800270, 871100

(b) net fee and commission income;

Fee and commission income (expense), operating Disclosure	Monetary Duration, Credit		330000, 800200, 800270

(c) insurance service result;

Insurance service result, operating Disclosure	Monetary Duration, Credit	IFRS 17.80 a Disclosure	330000, 800270, 836600

(d) net financial result (investment income minus insurance finance income and expenses); and

Financial result, operating Disclosure	Monetary Duration, Credit		330000, 800270

(e) net rental income.

Rental income (expense), operating Disclosure	Monetary Duration, Credit		330000, 800270

Presumption about communicating management's view

B124 Paragraph 119 states that a subtotal of income and expenses used in public communications outside its financial statements is presumed to communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole. Applying paragraph 120, an entity is permitted to rebut that presumption if it has reasonable and supportable information available that demonstrates that:

(a) the subtotal does not communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole (see paragraphs B125–B128); and

(b) the entity has a reason for using the subtotal in its public communications other than communicating management's view of an aspect of the financial performance of the entity as a whole (see paragraph B129).

B125 Examples of reasonable and supportable information that demonstrate that a subtotal does not communicate to users of financial statements management's view of an aspect of the financial performance of an entity as a whole are:

(a) an entity communicating the subtotal without prominence (see paragraph B126); and

(b) management not using the subtotal internally to assess or monitor the entity's financial performance (see paragraphs B127–B128).

B126 Whether an entity communicates a subtotal without prominence is a matter of judgement based on a number of factors, for example:

(a) the extent of references to the subtotal—few references indicate a lack of prominence, numerous references indicate prominence; and

(b) the content of commentary or analysis about or relying on the subtotal, for example:

(i) a description of the subtotal as information that does not communicate management's view and that is provided only in response to frequent requests from some users of financial statements indicates a lack of prominence;

(ii) use of the subtotal to support management analysis and commentary on the entity's financial performance and to provide explanations of the reasons for changes in the subtotal from period to period indicates prominence; and

(iii) a comparison of the subtotal to competitors' subtotals or industry benchmarks indicates prominence.

B127 Management's use of a subtotal to assess or monitor an aspect of the financial performance of the entity as a whole demonstrates that the subtotal communicates management's view of an aspect of the financial performance of the entity as a whole. However, if management uses a subtotal internally but not in an entity's public communications, the subtotal does not meet the definition of a management-defined performance measure.

B128 An entity might adjust a subtotal communicated in its public communications for use internally by management to assess or monitor the entity's financial performance. In such cases, the entity shall use its judgement to assess whether the subtotal it uses internally is sufficiently similar to the subtotal it uses in its public communications so that paragraph B127 applies. The more similar the subtotals are, the more likely it is that the subtotal used in the entity's public communications communicates to users of financial statements management's view of an aspect of the financial performance of the entity as a whole.

B129 Examples of reasonable and supportable information that demonstrates an entity has a reason for using a subtotal in its public communications other than to communicate to users of its financial statements management's view of an aspect of the financial performance of the entity as a whole are that the subtotal:

(a) is required in a public communication by law or regulation;

(b) communicates performance related to financial statements prepared in accordance with an accounting framework other than IFRS Accounting Standards;

(c) is used in a public communication to satisfy a request from an external party; or

(d) is used in a public communication for the purpose of communicating information other than financial performance.

B130 Paragraph 120 applies to a subtotal and not to individual items of income and expense that comprise the subtotal. Accordingly, an entity cannot assert that a subtotal does not communicate management's view of an aspect of the financial performance of the entity as a whole based on information that demonstrates that an individual item (or items) of income or expense within the subtotal does not represent such a view.

B131 An entity might change its use of a subtotal to communicate to users of its financial statements management's view of an aspect of the financial performance of the entity as a whole. As a result a subtotal might become, or cease to be, a management-defined performance measure. Judgement is required to identify whether a measure not originally identified as a management-defined performance measure has become one, or whether a measure previously identified as a management-defined performance measure has ceased to be one. For example, an entity might be required by a regulator to report a particular subtotal that, when first used, does not communicate management's view of an aspect of the financial performance of the entity as a whole. Over time the process of producing the subtotal might lead to management using the measure internally to assess and monitor the entity's financial performance or expanding the commentary and explanations in public communications beyond the regulatory requirements, with the result that the measure meets the definition of a management-defined performance measure.

Disclosure of management-defined performance measures

[Refer:

paragraphs 121–125

Basis for Conclusions paragraphs BC369–BC390]

Single note for information about management-defined performance measures

B132 Paragraph 122 requires an entity to include in a single note all information about management-defined performance measures required by paragraphs 121–125. If an entity also discloses other information in that note, the information in the note shall be labelled in a way that clearly distinguishes the information required by paragraphs 121–125 from the other information.

B133 For example, if an entity applies IFRS 8 and the reportable segment information includes a management-defined performance measure, the entity may disclose the required information about the management-defined performance measure in the same note as other reportable segment information, provided the entity either:

(a) includes in that note the information required by paragraphs 121–125 for all its management-defined performance measures and, to fulfil the requirements in paragraph B132, labels the information in the note in a way that clearly distinguishes the information required by paragraphs 121–125 from the information required by IFRS 8; or

(b) provides a separate note that includes the information required for all its management-defined performance measures, including those for which the entity includes information in the reportable segment information.

A clear and understandable manner

B134 Paragraph 123 requires an entity to label and describe its management-defined performance measures in a clear and understandable manner that does not mislead users of financial statements. To provide such a description, an entity shall disclose information that enables a user of financial statements to understand the items of income or expense included and excluded from the subtotal. Therefore, an entity shall:

(a) label and describe the measure in a way that faithfully represents its characteristics in accordance with paragraph 43 (see paragraph B135); and

(b) provide information specific to management-defined performance measures—that is:

(i) if the entity has calculated the measure other than by using the accounting policies it used for items in the statement(s) of financial performance, the entity shall state that fact and the calculations it has used for the measure; and

Entity calculated MPM other than by using accounting policies it used for line items in statement(s) of financial performance Disclosure	True/False	Effective 2027-01-01 IFRS 19.148 b (i) Disclosure	810000

(ii) if, in addition, the calculation of the measure differs from accounting policies required or permitted by IFRS Accounting Standards, the entity shall state that additional fact and, if necessary, an explanation of the meaning of terms it uses (see paragraph B135(b)).

Calculation of MPM differs from accounting policies required or permitted by IFRSs Disclosure	True/False	Effective 2027-01-01 IFRS 19.148 b (ii) Disclosure	810000
Disclosure related to calculation of MPM [text block] Disclosure	Text block	Effective 2027-01-01 IFRS 19.148 b Disclosure	810000

B135 To label and describe the measure in a way that faithfully represents its characteristics, an entity shall:

(a) label the measure in a way that represents the characteristics of the subtotal (for example, using the label 'operating profit before non-recurring expenses' only for a subtotal that excludes from operating profit all expenses identified by the entity as non-recurring); and

(b) explain the meaning of terms it uses in its descriptions that are necessary to understand the aspect of financial performance being communicated (for example, explaining how the entity defines 'non-recurring expenses').

Reconciliation to the most directly comparable total or subtotal

B136 Paragraph 123(c) requires an entity to reconcile each management-defined performance measure to the most directly comparable subtotal listed in paragraph 118 or total or subtotal specifically required to be presented or disclosed by IFRS Accounting Standards. For example, an entity that discloses in the notes a management-defined performance measure of adjusted operating profit or loss shall reconcile that measure to operating profit or loss. In aggregating or disaggregating the reconciling items disclosed, an entity shall apply the requirements in paragraphs 41–43.

B137 For each reconciling item, an entity shall disclose:

(a) the amount(s) related to each line item in the statement(s) of financial performance; and

(b) a description of how the item is calculated and contributes to the management-defined performance measure providing useful information (see paragraphs B138–B140), if necessary to provide the information required by paragraphs 123(a) and 123(b).

B138 The description required in paragraph B137(b) is required if there is more than one reconciling item and each item is calculated using a different method or contributes to providing useful information in a different way. For example, an entity might exclude from a management-defined performance measure several items of expense, some because they were identified as outside management's control and others because they were identified as non-recurring. In such cases, disclosure of which items contributed to which type of adjustment would be required to explain how the management-defined performance measure provides useful information.

B139 A single explanation might apply to more than one item or might apply to all reconciling items collectively. For example, an entity might exclude several items of income or expense in calculating a management-defined performance measure based on an entity-specific application of 'non-recurring'. In such a case, a single explanation that includes the entity's definition of 'non-recurring' that applies to all reconciling items might satisfy the requirement in paragraph B137(b).

B140 Applying paragraph 123(c), an entity is permitted to reconcile a management-defined performance measure to a total or subtotal that is not presented in the statement(s) of financial performance. In such cases, an entity:

(a) shall reconcile that total or subtotal to the most directly comparable total or subtotal presented in the statement(s) of financial performance; and

(b) is not required to disclose the information required by paragraphs 123(d) and 123(e) for the reconciliation in (a).

Income tax effect for each item disclosed in the reconciliation

B141 An entity is required by paragraph 123(d) to disclose the income tax effect for each item disclosed in the reconciliation between a management-defined performance measure and the most directly comparable subtotal listed in paragraph 118 or total or subtotal specifically required to be presented or disclosed by IFRS Accounting Standards. An entity shall determine the income tax effect required by paragraph 123(d) by calculating the income tax effects of the underlying transaction(s):

(a) at the statutory tax rate(s) applicable to the transaction(s) in the tax jurisdiction(s) concerned;

(b) based on a reasonable pro rata allocation of the current and deferred tax of the entity in the tax jurisdiction(s) concerned; or

(c) by using another method that achieves a more appropriate allocation in the circumstances.

B142 If, applying paragraph B141, an entity uses more than one method to calculate the income tax effects of reconciling items, it shall disclose how it determined the tax effects for each reconciling item.

Appendix CEffective date and transition

This appendix is an integral part of the IFRS Accounting Standard.

Effective date

[Refer:Basis for Conclusions paragraphs BC414–BC416]

C1 An entity shall apply this Standard for annual reporting periods beginning on or after 1 January 2027. Earlier application is permitted. If an entity applies this Standard for an earlier period, it shall disclose that fact in the notes.

Description of fact that new or amended IFRS Accounting Standard is applied early Disclosure	Text	811000
New or amended IFRS Accounting Standard is applied early Disclosure	True/False	811000
Presentation and Disclosure in Financial Statements [member] Disclosure	Member	811000

Transition

[Refer:Basis for Conclusions paragraphs BC417–BC423]

C2 An entity shall apply this Standard retrospectively applying IAS 8. However, an entity is not required to present the quantitative information specified in paragraph 28(f) of IAS 8. An entity applying IFRS 19 Subsidiaries without Public Accountability: Disclosures is not required to present the quantitative information required by paragraph 178(f) of IFRS 19.

C3 In its annual financial statements an entity shall disclose, for the comparative period immediately preceding the period in which this Standard is first applied, a reconciliation for each line item in the statement of profit or loss between:

(a) the restated amounts presented applying this Standard; and

(b) the amounts previously presented applying IAS 1 Presentation of Financial Statements.

Disclosure of reconciliation between restated amounts presented applying IFRS 18 and amounts previously presented applying IAS 1 [text block] Disclosure	Text block	810000

C4 If an entity applies IAS 34 in preparing condensed interim financial statements in the first year of applying this Standard, the entity shall present in the condensed interim financial statements each heading it expects to use in applying the Standard and the subtotals required by paragraphs 69–74 of this Standard, despite the requirements in paragraph 10 of IAS 34. An entity shall not apply the requirements in paragraph 10 of IAS 34 for headings and subtotals in condensed interim financial statements until it has issued its first set of annual financial statements prepared in accordance with this Standard.

C5 If an entity applies IAS 34 in preparing interim financial statements in the first year of applying this Standard, the entity shall, as part of the information required by paragraph 16A(a) of IAS 34, disclose reconciliations for each line item presented in the statement of profit or loss for the comparative periods immediately preceding the current and cumulative current periods. The reconciliations are required between:

(a) the restated amounts presented applying the accounting policies for the comparative period and the cumulative comparative period when the entity applies this Standard; and

(b) the amounts previously presented applying the accounting policies for the comparative period and cumulative comparative period when the entity applied IAS 1.

An entity applying IFRS 19 Subsidiaries without Public Accountability: Disclosures shall instead disclose such a reconciliation as part of the information required by paragraph 246(a) of IFRS 19.

C6 An entity is permitted, but not required, to disclose the reconciliations described in paragraphs C3 and C5 for the current period or earlier comparative periods.

C7 At the date of initial application of this Standard, an entity eligible to apply paragraph 18 of IAS 28 is permitted to change its election for measuring an investment in an associate or joint venture from the equity method to fair value through profit or loss in accordance with IFRS 9. If an entity makes such a change, the entity shall apply the change retrospectively applying IAS 8. An entity applying paragraph 11 of IAS 27 shall make the same change in its separate financial statements.

Withdrawal of IAS 1

C8 This Standard supersedes IAS 1.

Appendix DAmendments to other IFRS Accounting Standards

This Appendix describes the amendments to other Standards that the IASB made when it finalised IFRS 18. An entity shall apply the amendments for annual periods beginning on or after 1 January 2027. If an entity applies IFRS 18 for an earlier period, these amendments shall be applied for that earlier period.

* * * * *

The amendments contained in this appendix when this Standard was issued in 2024 have been incorporated into the text of the relevant Standards included in this volume.

Board Approvals

Approval by the International Accounting Standards Board of IFRS 18 Presentation and Disclosure in Financial Statements issued in April 2024
