1. EXECUTIVE SUMMARY

INTRODUCTION

In accordance with paragraph 5 of Article 31 of Directive 2009/138/EC, Implementing Technical Standards (ITS) shall specify the templates and structure of the disclosure, which supervisory authorities should use to comply with the transparency and accountability provisions set out in that Article. Commission Implementing Regulation (EU) 2015/2451 lays down those ITS.

EIOPA has reviewed the ITS to keep it consistent with the legal framework which was changed in the Solvency II review. This final report sets out the final text of the amendments to the ITS including a feedback statement on the public consultation.

CONTENT

Commission Implementing Regulation (EU) 2015/2451 specifies the templates and structure of aggregate quantitative and qualitative information to be disclosed by supervisory authorities, covering insurance and reinsurance undertakings, insurance groups and supervisory activities. The amendments update the templates and instructions for the disclosure of specific information items in order to ensure consistency with the amended Solvency II Directive, the changes to the Commission Delegated Regulation (EU) 2015/35, and the updated supervisory reporting framework. The amendments contribute to transparency, comparability and usability of supervisory disclosures across Member States, support a more harmonised application of Solvency II, and facilitate stakeholders' access to reliable and up-to-date supervisory information.

PUBLIC CONSULTATION

EIOPA conducted a public consultation on the Guidelines between 9 October 2025 and 5 January 2026. One stakeholder provided feedback on the consultation paper. Based on the stakeholder feedback, no changes have been made to the draft amendments. However, some editorial errors in the amendments were corrected.

NEXT STEPS

The amendments were submitted to the European Commission for adoption. In accordance with Article 15 of Regulation (EU) No 1094/2010 (EIOPA Regulation)¹, the Commission will decide on the adoption of the draft ITS.

¹ Regulation (EU) No 1094/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Insurance and Occupational Pensions Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/79/EC, OJ L 331, 15.12.2010, p. 48–83

2. BACKGROUND

Commission Implementing Regulation (EU) 2015/2451² lays down ITS with regard to the templates and structure of the disclosure of specific information by supervisory authorities in accordance with Directive 2009/138/EC (Solvency II Directive)³. A review of the ITS was necessary to ensure consistency with the outcome of the review of the Solvency II Directive and Commission Delegated Regulation (EU) 2015/35⁴. In particular, Commission Delegated Regulation (EU) 2026/269⁵ amended Annex XXI of Commission Delegated Regulation (EU) 2015/35, which specifies the aggregated statistical data to be disclosed by supervisory authorities on key aspects of the application of the prudential framework. The ITS were also reviewed to keep up to date references to the supervisory reporting templates of Solvency II.

The proposed amendments relate to the Annexes of the ITS, reflecting in particular the following changes to the legal framework:

- The inclusion of information on small and non-complex undertakings, small and non-complex groups and the use of proportionality measures in Annex XXI of Commission Delegated Regulation (EU) 2015/35.
- The amendments to the Solvency II Directive with regard to the exercise of Member State options provided for in Solvency II.
- The amendment to Annex XXI of Commission Delegated Regulation (EU) 2015/35 in 2019 related to the application of the principal loss-absorbency mechanism.
- The changes to supervisory reporting templates introduced by Commission Implementing Regulation (EU) 2023/894⁶.

A more detailed list of changes is set out in annex 2 of this final report.

This proposal for amendments to the ITS is not accompanied by an impact assessment because the amendments ensure consistency with changes that were made to the Solvency II Directive, Commission Delegated Regulation (EU) 2015/35 and Commission Implementing Regulation (EU) 2023/894. These changes have been duly assessed at that stage. Accordingly, we do not expect a material additional impact from the limited amendments proposed.

The conclusions of this initial assessment remain valid and continue to support the current policy options retained in the draft ITS. For further details, please refer to the Final Report on Public Consultation No. 14/051.

ANNEX 3: FEEDBACK STATEMENT

This feedback statement sets out a high-level summary of the consultation comment received and EIOPA's assessment thereof. The full non-confidential comments and their resolutions can be found on EIOPA's website.

EIOPA received one comment from an industry association. EIOPA's Insurance and Reinsurance Stakeholder Group was consulted and did not provide any comments. As part of the consultation, EIOPA held a workshop with stakeholders to discuss the draft ITS on 10 December 2025.

EIOPA would like to express its appreciation for the feedback of the stakeholder during the preparation of the draft ITS.

ACCESSIBILITY OF DISCLOSURE TEMPLATES

Stakeholder comment

The stakeholder comment claims that the effectiveness of the revised ITS is undermined by the limited accessibility, inconsistent publication and lack of timely updates of disclosures on the websites of supervisory authorities, and suggests clearer expectations and possible centralisation to improve transparency.

Assessment

In response to these comments, no change was made to the draft ITS. EIOPA has drawn the attention of supervisory authorities to this issue and encouraged them to ensure that the relevant disclosures are easy to find and regularly updated on their websites. Annex 4 lists the links to the websites that currently set out the disclosure templates of the supervisory authorities.
